2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA I Semester		
Code: C1E01	MANAGEMENT AND ORGANIZATIONAL BEHAVIOR	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

Through reading the text, references and discussion of cases students should be able to understand the fundamentals underlying the management of an organization.

MODULE – I

[13 Periods]

A: Introduction to Management: Introduction to management- Nature and Scope- Functions of management- Roles of a manager.

B: Evolution of Management: Theories of Management- Pre-Scientific theory- Classical theory - Scientific, Administrative, Behavioral- Neo-classical theory- Systems and Contingency theory

MODULE – II

[13 Periods]

A: Organizational planning and decision making: Introduction-Need for planning- Types of planning-Steps in the process of planning-Advantages and limitation of planning.

B: Decision making- Introduction- Problem and opportunity finding- Process of decision making- Techniques of decision making- Leadership styles on decision making.

MODULE – III

[13 Periods]

A: Organization structure and Design, motivation: Principles of organizing, organizational design-Organizational structures.

B: Motivation: Introduction- Types of motivation-Theories of motivation-Maslow's needs theory, Two factor theories of motivation, Mc Gregor's theory, ERG theory, and Mc-Cellands needs theory, Valence Theory.

MODULE – IV

[13 Periods]

A: Organizational Behavior: Introduction to Organizational behavior- Importance of OB, Individual and group behavior - Personality theories, Perception and individual decision making.

B: Group Dynamics: Formation of group- group functions - classification of groups, group properties, group cohesiveness, group decision making process – Organization power and Politics.

MODULE – V

[12 Periods]

A: Communication and control: Communication-meaning- Methods of communication- communication channels-Barriers to communication.

B: Control - Feedback and feed-forward control-Basic process of control-Problems of control process-Requirements of effective control.

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA I Semester		
Code: C1E02	BUSINESS AND LEGAL ENVIRONMENT	L	T	P
Credits: 4		4	-	-

Prerequisites: Fundamentals of Business and Indian Legal system.

Course objectives:

The aim of this course is to enable students to understand the Business Environment, Legal and Regulatory framework of Indian Industry for doing business in India.

MODULE – I

[10 Periods]

Business Environment: Environmental scanning- Internal and external environmental factors, Industrial Policy, Industrial policies since Independence, Industrial Policy 1991 and recent developments in Indian Industrial Policy.

Economic Policies: Fiscal Policy, Monetary Policy, India's Trade Policy, Policy changes and Issues, recent developments, India's new EXIM policy and FEMA.

MODULE – II

[12 Periods]

The Indian Contract Act - 1872: Nature and essential elements of valid contract, Types of Contracts on different bases, Breach of contract and Remedies for breach of contract, Contingent contracts, contract of Indemnity and guarantee.

The Sale of Goods Act - 1930: Introduction, sale and agreement to sell, distinguish between sale and agreement to sell, Hire purchase agreement, auction sale, Conditions and Warranties, Unpaid seller and rights of an unpaid seller.

MODULE – III

[12 Periods]

Negotiable Instruments Act - 1881: Definitions and characteristics, Promissory Note, Bills of Exchange & Cheque, Types of endorsements, Holder- Holder in due course, Discharge of Parties. RBI Guidelines and regulations.

Competition Act - 2002: Importance, Objective and salient features, anti-competitive agreements, prevention of abuse of dominant position, combinations, competition advocacy, distinguish between MRTP Act and Competition Act. Competition Commission of India(CCI).

MODULE –I V

[12 Periods]

Indian Partnership Act - 1932: Introduction, types of partners and partnerships, formation of partnership, Rights of partners, Dissolution of firms.

Limited Liability Partnership Act - 2008: Definition, nature and salient features, Incorporation of LLP, distinction between LLP and firm Conversion, Winding up and Dissolution of LLP.

MODULE – V

[10 Periods]

Companies Act – 2013: Company and its formation, Types of companies, Appointment, Powers, Duties & Liabilities of Directors, Doctrine of Ultra Vires, Indoor Management and Constructive Notice. Company meetings, types of meetings, Winding-up of a Company, Modes of winding up.

Code: C1E03	FINANCIAL ACCOUNTING AND ANALYSIS	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

The objective of this course is to understand the accounting process and to develop skills necessary to evaluate an enterprise's financial position and its operating, investing and financing activities.

MODULE – I

[13 Periods]

Introduction to Accounting: Importance, Objectives and Principles, Accounting Concepts and Conventions, and the Generally Accepted Accounting Principles [GAAP], their implications on accounting system; Double entry system–recording business transactions–Classification of accounts—Accounting cycle.

MODULE – II

[13 Periods]

The Accounting Process: Overview, Books of Original Record; Journal and Subsidiary books, ledger, Trial Balance, Classification of capital and revenue expenses, Final Accounts with adjustments.

MODULE – III

[13 Periods]

A: Valuation of fixed assets: Tangible Vs Intangible assets, methods of depreciation; Depreciation concept– Depreciation of Fixed Assets -Methods of depreciation–their impact on measurement of business Accounting.

B: Inventory Valuation: Methods of inventory valuation and valuation of goodwill, methods of valuation of goodwill.

MODULE – IV

[12 Periods]

Financial Analysis-I: Statement of Changes in Working Capital, Funds from Operations, paid cost and unpaid costs- Distinction between cash profits and book profits. Preparation and analysis of cash flow statement and funds flow statement.

MODULE – V

[13 Periods]

Financial Analysis-II: Analysis and interpretation of financial statements from investor and company point of view, Horizontal Analysis and Vertical Analysis of Company Financial Statements. Liquidity, leverage, solvency and profitability ratios – Du Pont Chart –Accounting Standards Issued by ICAI, their rationale and growing importance in global accounting environment,–IAS-IFRS-US -Creative Financial Practices and Issues related to quality of disclosures in Reported Earnings, Window Dressing and limitations of financial statements.

Code: C1E04	MANAGERIAL ECONOMICS	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

To enable students to acquire knowledge to understand the economic environment of an organization.

MODULE – I

[13 Periods]

Introduction to Managerial Economics: Definition, Nature and Scope, Relationship with other areas in Economics- The role of managerial economist- Basic economic principles – the concept of opportunity cost, incremental concept, scarcity, Time perspective, discounting principle, risk and uncertainty- co-ordinal approach to consumer equilibrium.

MODULE – II

[13 Periods]

Theory of Demand: Demand Analysis, Elasticity of demand, types and significance of Elasticity of Demand. Demand estimation – Marketing research approaches to demand estimation. Need for forecasting, forecasting techniques. Supply Analysis – Supply function, the Law of Supply, Elasticity of Supply.

MODULE – III

[13 Periods]

Production Analysis: Production function, Production functions with one/two variables, Cobb-Douglas Production Function Marginal Rate of Technical Substitution.

Isoquants and Isocosts: Returns to Scale and Returns to Factors, Economies of scale- Innovations and global competitiveness.

MODULE – IV

[12 Periods]

Cost theory and estimation: Cost concepts, determinants of cost, cost-output relationship in the short run and long run, short run vs. long run costs, average cost curves, Overall Cost leadership.

Alternative objectives of the firm: Profit maximization theory, Managerial utility models, Growth maximization models, Behavioral theories of the firm

MODULE – V

[13 Periods]

Market Structure and Pricing Practices: Features and Types of different competitive situations - Price-Output determination in Perfect competition, Monopoly, Monopolistic competition and Oligopoly - both the long run and short run, Pricing philosophy.

5. https://www.youtube.com/watch?v=wc_8dLS53js

Course Outcomes:

At the end of the course, the student will be able to:

CO1: Know the basic economic principles and the concepts of managerial economics.

CO2: Understand the concepts of demand analysis, forecasting demand and supply analysis.

CO3: Analyze the production function.

CO4: Learn the cost theory and estimate cost output relationships.

CO5: Know about market structures and pricing practices.

Code: C1E05	RESEARCH METHODOLOGY AND STATISTICAL ANALYSIS	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

The Objective of the course is to introduce the basic statistics and different statistical tools for data analysis, interpretation, and presentation of reports in different functional areas of Management.

*Statistical table is required for the students.

MODULE – I

[12 Periods]

Research Methodology: Introduction to Research - Review of Literature-Research Gaps- Research Questions-Objectives-Hypotheses-Scope of the study-Period of the study-Sampling Techniques-Data Collection-Primary data –Questionnaire design- Secondary data-Data Analysis-Limitations of the study-Appendix-References.

MODULE – II

[13 Periods]

A: Measures of central Tendency: Mean, Median, Mode, Geometric Mean and Harmonic Mean, Dispersion-Range Quartile deviation, Mean Deviation, Standard deviation and coefficient of variation Skewness: Karl Pearson coefficient of skewness, Bowley's coefficient of skewness Kelly's coefficient of skewness. Theory and problems, Discussion on direct and indirect methods of solving the problems.

B: Tabulation, Graphical presentation of data: Histogram, Diagrammatic representation of data: Bar diagram, Multiple Bar diagram, Sub-divided Bar Diagram, Pie Diagram.

MODULE – III

[13 Periods]

A: Parametric and Non- Parametric Hypothesis Testing: Procedure for Testing of Hypothesis, Small Sample Tests: T-Distribution-properties and applications, testing for one and two means, paired t-test. Analysis of Variance, One Way and Two Way ANOVA [with and without Interaction]. Chi-Square distribution: Test for a specified Population variance, Test for Goodness of fit, Test for Independence of Attributes

B: Non-Parametric Tests: Sign test for paired data. Rank sum test. Kolmogorov-Smirnov – test for goodness of fit, comparing two populations. Mann – Whitney U test and Kruskal Wallis test. One sample run test.

MODULE – IV

[13 Periods]

Correlation: Correlation Analysis-Scatter diagram, Positive and Negative correlation, limits for coefficient of Correlation, Karl Pearson's coefficient of correlation, Spearman's Rank correlation, concept of Multiple and partial Correlation.

MODULE – V**[13 Periods]**

Regression Analysis: Concept, least square fit of a linear regression, two lines of regression, Properties of regression coefficients ,Time Series Analysis-Components, Models of Time Series–Additive, Multiplicative and Mixed models; Trend analysis-Free hand curve, Semi averages, moving averages, Least Square methods and Index numbers – introduction ,Characteristics and uses of index numbers ,types of index numbers.

Course Outcomes:

At the end of the course, the student will be able to:

CO1: Understand the basics of research methodology and its process.

CO2: Solve the problems relating to measuring central tendency.

CO3: Know the various Parametric and Non- Parametric Hypothesis Testing methods.

CO4: Analyze various statistical tools used for correlation.

CO5: Apply the concepts of regression and trend analysis.

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA I Semester		
Code: C1EM1	COMPUTER APPLICATIONS IN BUSINESS (Report and Seminar)	L	T	P
Credits: MC		-	-	2

Prerequisites: NIL

Course Objectives:

The objective of this course is to lay an important foundation to students in managing various computer applications with a special focus on business activities and its requirements.

Computer Basics-I: An overview of the computer system. Windows operating system- MS Word- basics, creating, editing and formatting documents, inserting tables and graphics. MS PowerPoint- basics, creating presentation, customizing design templates with slide masters, producing presentation. MS Access- basics, designing and creating database, adding and maintaining data in tables, retrieving data using forms and reports.

Computer Basics-II:MS Excel- basics, and printing worksheets, Entering and editing data MS Excel, Data Validation, Sort, Filter.LookUp functions(Vlookup, Hlookup,Match, Index), Logical Functions(IF, AND, OR), Pivot tables and Pivot Charts.

Computer Basics-III: Data Analysis In MS- Excel: Basic Arithmetic Operations in Ms-Excel(Sum, Sumif, Sumifs, Count, CountA, Countifs, Average, Averageif, Averageifs,Max, Min), Measures of Central Tendency In Excel, Measures of Dispersion, ANOVA in Excel, Correlation and Regression in Excel. t-test, Chi-square and F- test in Excel.

Computer Applications in Financial Management: Using MS Excel to solve financial management problems- Present Value, Future Value, NPV, IRR. Financial Modeling.

Computer Applications in Statistical Analysis: Features of SPSS, Creating files and data entry in SPSS, Preparation of frequency tables and graphs, Computation and interpretation of Mean, Standard Deviation, Standard Error, Simple and multiple correlation, regression, Analysis of variance, t-Test, Chi-Square Test. F-test, ANOVA, and time series.

Computer Lab Practical to be done during the course:

1. Financial Modeling using MS Excel.
2. Computation of Present value, future value, Net Present Value using MS Excel.

3. Basic arithmetic operations in Ms-Excel.
4. Performing Descriptive statistics, Correlation, Regression in MS-Excel/ SPSS.

References:

1. Microsoft Excel 2019 Data Analysis and Business Modeling (Business Skills) 6th Edition, Wayne L.Winston, Microsoft Press.
2. Data Analysis in Management with SPSS Software, J.P. Verma, Springer Publishers.

4. <https://www.youtube.com/watch?v=-ivpFNCU4CY>
5. <https://www.youtube.com/watch?v=0S89RyIVu2k>

Note: Student has to submit a report on using MS-Excel to get the course grade (Satisfactory/ non- satisfactory) at the end of the semester.

CO1: Understand the Financial statement analysis using MS Excel.

CO2: Apply knowledge on computation of Present value, future value, Net Present Value using MS Excel knowledge.

CO3: Know the best practices accounting cycle using TALLY.

CO4: Understand the various online trading.

CO5: Analyze the descriptive statistics, correlation, and regression using MS Excel/SP

Code: C1E08	MARKETING MANAGEMENT	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

Aim is to understand the basic marketing concepts through case studies. It also offers the knowledge of market segmentation, distribution channels and pricing decisions.

MODULE – I

[12 Periods]

Introduction to Marketing: Importance, scope of Marketing, Core Marketing Concepts, Marketing Philosophies, Marketing Environment, Marketing Strategies & Plans, Developed Vs Developing Marketing. Market - Green Marketing.

MODULE – II

[13 Periods]

Marketing Mix: Consumer Decision Making - Creating Customer Value, Analyzing Consumer Markets – Consumer Behavior – cultural, Social & Personal Factors, developing products & brands – product levels- classifying products, product range, line & mix, PLC, new product development.

MODULE – III

[13 Periods]

A: Market Segmentation: Segmentation of consumer market, business market, requirement for effective segmentation.

B: Market Targeting: Evaluating market segmentation, selecting target market segmentation, positioning – positioning maps, positioning strategy

MODULE – IV

[13 Periods]

Distribution channels and promotion: Marketing Channels, Channel intermediates and functions, channel structure, channel for consumer products, business and industrial products, alternative channel, channel strategy decisions. The promotional mix, advertising, public relations, sales promotion, personal selling, marketing communication- communication process, communication promotion mix, factors affecting the promotion mix

MODULE – V

[13 Periods]

Pricing Decisions & Personal Communication: Importance of price, cost determinant of price, markup pricing, profit maximization pricing, break even pricing, pricing strategy, ethics of pricing strategy, product line pricing

Marketing Communication: WOM, Rural marketing, BOP, relationship Marketing, Digital marketing, Social marketing, post modern marketing, market sustainability and ethics, Global marketing.

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA II Semester		
Code: C1E09	FINANCIAL MANAGEMENT	L	T	P
Credits: 4		4	4	-

Prerequisites: NIL

Course Objectives:

To give an overview of problems faced by a financial manager in the commercial world, to introduce you to the concepts and theories of corporate finance that underlie the techniques that are offered as aids for the understanding, evaluation and resolution of financial manager's problems.

*The students need Discounting Table and Annuity tables for the examination

MODULE – I

[13 Periods]

The Finance Function: Nature and Scope; Evolution of finance function – Its new role in the contemporary scenario –Goals of finance function – maximizing vs. satisfying; Profit vs. Wealth vs. Welfare; the Agency relationship and costs; Risk-Return trade off; Concept of Time Value of Money – Future Value and Present value and the basic valuation model.

MODULE – II

[13 Periods]

A: The Investment Decision: Investment decision process- Project generation, project evaluation, project selection and project Implementation. Developing Cash Flow; Data for New Projects; Capital Budgeting Techniques –Traditional and DCF methods. The NPV vs. IRR Debate; Approaches for reconciliation. Capital budgeting decision under conditions of risk and uncertainty.

B: Cost of capital: Concept and measurement of cost of capital, Debt vs. Equity, cost of equity, preference shares, equity capital and retained earnings, weighted average cost of capital and marginal cost of capital. Importance of cost of capital in capital budgeting decisions.

MODULE – III

[13 Periods]

A: Capital Structure Decisions: Capital structure vs. financial structure - Capitalization, financial leverage, operating leverage and composite leverage. EBIT-EPS Analysis, Indifference Point/Break even analysis of financial leverage.

B: Capital structure Theories: The Modigliani Miller Theory, NI, NOI Theory and Traditional Theory –A critical appraisal.

MODULE – IV

[12 Periods]

Dividend Decisions: Dividends and value of the firm - Relevance of dividends, the MM hypothesis, Factors determining Dividend Policy-dividends and valuation of the firm-the basic models. Declaration and payment of dividends - Bonus shares - Rights issue, share-splits, Major forms of dividends – Cash and Bonus shares. The theoretical backdrop – Dividends and valuation; Major theories centered on the works of GORDON, WALTER and LITNER. A brief discussion on dividend policies of Indian companies

MODULE – V**[12 Periods]**

A: Working Capital and Management of Current Assets: Working Capital Management: Components of working capital, gross vs. net working capital, determinants of working capital needs, the operating cycle approach. Planning of working capital, Financing of working capital through Bank finance and Trade Credit – Recommendations of Tandon and Daheja Committee on Working Capital.

B: Management of cash: Basic strategies for cash management, cash budget, cash management techniques/processes. Marketable securities: characteristics, selection criterion, Marketable security alternatives; Management of receivables and Management of inventory- The importance of current assets management in working capital planning.

Code: C1E10	HUMAN RESOURCE MANAGEMENT	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

To understand various concepts of HRM and be able to manage the human resources of an organization effectively and efficiently

MODULE – I

[13 Periods]

Introduction of HRM: Introduction to HRM – Scope - Nature- Functions - HR Duties – New Approaches to Organizing HR – The Trends shaping Human Resource Management- Globalization & Competition Trends – Technological Trends – Trends in Nature of Work – Workforce and Demographic Trends – Economic Challenges – HRIS -e-HRM

MODULE – II

[13 Periods]

Recruitment and Selection : Basics of Job Analysis – Methods for Collecting Job Analysis Information – Job Satisfaction – Job Enlargement, Job Enrichment, Job Rotation - HR Planning – Recruitment: Process - Sources of Recruitment – Recruitment of Diverse WorkForce – Selection: Process - Types of Interviews – Errors in Interviews – HR Policies & Practices - Placement.

MODULE – III

[12 Periods]

A: Training & Development of Employees : Process [Analyzing Training needs & Designing the program – Implementing different training program – Implementing Management Development Programs – Evaluating the Training Programs] – Methods of training

B: Performance Appraisal: Concept of Performance management, Management Appraisal – Techniques for Performance Appraisal – Career Management – Employee Life Cycle.

MODULE – IV

[13 Periods]

Compensation: Basic Factors in Determining pay structure – Establishing pay rates – Pricing Managerial and Professional Jobs – Special Topics in Compensation – Benefits – Insurance – Retirement Benefits – Personal Services & Family friendly benefits – Salient features of Workmen Compensation Act & Minimum Wages Act.

MODULE – V

[13 Periods]

Industrial Relation : Labor Movement – Collective Bargaining Process – Grievances – Managing Dismissals – Employee Safety and Health – Occupational Safety Law – Workplace Health Hazards Problems & Remedies – Labor Legislation in India: Salient features of Industrial Disputes Acts 1947 – Factories Act, Mines Act- – Equal Employment Opportunity 1990-1991.

Code: C1E11	LOGISTICS AND SUPPLY CHAIN MANAGEMENT	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

To give students an understanding that the problems and issues within the respective fields of logistics are invariably complex, and require clear reasoning and analysis, in order to derive an appropriate course of action. To incorporate and learn the critical elements of Logistics and Supply Chain Management processes.

MODULE- I

[13 Periods]

LOGISTICS AND COMPETITIVE STRATEGY

Competitive Advantage - Gaining Competitive Advantage Through Logistics-Integrated Supply Chains - Competitive Performance - Models in Logistics Management - Logistics to Supply Chain Management - Focus Areas in Supply Chain Management - Customer Service and Retention- Basic Service Capability Value Added Services.

MODULE- II

[13 Periods]

MEASURING LOGISTICS COSTS AND PERFORMANCE

The Concept of Total Cost Analysis - Principles of Logistics Costing - Logistics and the Bottom- Line - Impact of Logistics on Shareholder Value - Customer Profitability Analysis - Direct Product Profitability-Cost Drivers and Activity-Based Costing.

MODULE- III

[12 Periods]

LOGISTICS AND SUPPLY CHAIN RELATIONSHIPS

Benchmarking the Logistics Process and SCM Operations - Mapping the Supply Chain Processes -Supplier and Distributor Benchmarking - Setting Benchmarking Priorities - Identifying Logistics Performance Indicators - Channel Structure - Economics of Distribution - Channel Relationships - Logistics Service Alliances.

MODULE- IV

[13 Periods]

SOURCING, TRANSPORTING AND PRICING PRODUCTS

Sourcing Decisions and Transportation in Supply Chain - Infrastructure Suppliers of Transport Services - Transportation Economics and Pricing - Documentation - Pricing and Revenue Management Lack of Coordination and Bullwhip Effect - Impact of Lack of Coordination. - CRM- Internal Supply Chain Management.

MODULE- V

[13 Periods]

MANAGING GLOBAL LOGISTICS AND GLOBAL SUPPLY CHAINS

Logistics in a Global Economy - Views of Global Logistics - Global Operating Levels - Interlinked Global Economy-The Global Supply Chains - Global Supply Chain Business Processes - Global Strategy - Global Purchasing - Global Logistics - Channels

in Global Logistics - Global Alliances - Issues and Challenges in Global Supply Chain Management.

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA II Semester		
Code: C1E12	Entrepreneurship and Design Thinking	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

The aim of this subject is to inspire students to become entrepreneurs so that they will emerge as job providers rather than job seekers.

MODULE – I

[13 Periods]

Understanding Entrepreneurial Mindset: The Evolution of Entrepreneurship, Qualities, Skills, Functions of Entrepreneurs, Types of Entrepreneurs, Approaches to Entrepreneurship, Process Approach, and Role of Entrepreneurship in Economic Development.

The individual Entrepreneurial Mindset and Personality: The Entrepreneurial Journey, Stress and the Entrepreneur, The Entrepreneurial Ego, Entrepreneurial Motivations, Motivational Cycle, Entrepreneurial Motivational Behavior, Entrepreneurial Competencies, Entrepreneurial Stress.

MODULE – II

[12 Periods]

Strategic Perspectives in Entrepreneurship: Strategic Planning, Strategic Actions, Strategic Positioning, Business Stabilization, Building the Adaptive Firms, Understanding the Growth Stage, Internal Growth Strategies and External Growth Strategies, Unique Managerial Concern of Growing Ventures.

MODULE – III

[13 Periods]

Opportunities and Challenges of Entrepreneurship: Initiatives by the Government of India to Promote Entrepreneurship, Social and Women Entrepreneurship. Feasibility Analysis, Industry and Competitor Analysis, Formulation of the Entrepreneurial Plan, The Challenges of New Venture Start-ups, Developing an Effective Business Model, Blue and Red Ocean Strategies, Sources of Finance, Critical Factors for New venture Development, Evaluation Process. Intellectual Property Protection: Patents, Copyrights, Trademarks and Trade Secrets, Avoiding Trademark Pitfalls.

MODULE – IV

[12 Periods]

Design Thinking – An Introduction: Principles of Design Thinking, Process of Design Thinking, planning a Design Thinking Project, Understanding of the Problem, Problem Analysis, Reformation of the Problem, Empathetic Design Methods.

MODULE – V

[12 Periods]

Prototype, Testing Ideas, Implementing Design Thinking: Creativity, Creativity Process, Creativity Techniques, Business Idea, Evaluation of Ideas, Kano Method, Finding Gaps in the Market Place, Prototype, Lean Startup Method, Visualization, Presentation Techniques, Desirability Testing, Methods to Initiate Ventures, Creating New Ventures, Acquiring an Established Venture, Franchising, Advantages and Disadvantages, Implementing Design Thinking, Agility for Design Thinking.

Reference Books:

2. <http://www.onlinevideolecture.com/?course=mba-programs&subject=entrepreneurship>
3. http://nptel.ac.in/courses/122106032/Pdf/7_4.pd
4. <https://www.scribd.com/doc/21516826/Entrepreneurship-Notes>

Course Outcomes:

At the end of the course, the student will be able to:

- CO1: Know the new trends in entrepreneurship and understands the concept of entrepreneurial mind set and personality.
- CO2: Learn the process and various stages involved in starting a new venture.
- CO3: Identify the various sources of financing for new ventures and the institutions offering entrepreneurship development programs in India
- CO4: Identify the role of Central Government and State Government in promoting Entrepreneurship and also gains the knowledge of issues and challenges of women entrepreneurship.
- CO5: Appreciate the various legal aspects of entrepreneurship and the challenges of new startups in India. Also understands how the strategy helps in making the new startups successful.

CO- PO Mapping (3/2/1 indicates strength of correlation) 3-Strong, 2-Medium, 1-Weak

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA II Semester		
Code: C1E13	OPERATIONS RESEARCH	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

To introduce students the tools and techniques of quantitative Analysis & operations to equip them to make an optimal managerial decisions

MODULE I

[13 Periods]

Operations research: Introduction, Importance and Scope of OR in business activities, Optimization concept, OR Models: Linear programming, Introduction to LP, Problem formulation, product mix and various managerial applications and Graphical method of problem solving, Alternate solution of LP, Duality in LP, Formulation of dual problems, advantages, its economics interpretation, Sensitivity analysis only just to know no problems need be worked out and software packages to be used to solve LP models.

MODULE –II

[13 Periods]

A: Transportation models: Mathematical Model of transportation problem, Methods for finding Initial feasible solution: Northwest corner Method, Least Cost Method, Vogel’s approximation Method, Test of optimality by MODI Method, Variation transportation, Problems like unbalanced Supply and demand, Degeneracy and its resolution.

B: Assignment Model: Algorithm for solving assignment model, Hungarians Method for solving assignment problem, Maximization case in assignment problem: unbalanced assignment problem, traveling salesman problem. .

MODULE- III

[13 Periods]

A: Queuing theory: Queuing theory (waiting line), Single server/Single Queue, Essential features of queuing system, Single Queue, Operating characteristics of queuing system, Probability distribution in queuing system, Multi server, description of other queuing models (only description)

B: Sequencing problems:

Processing 'n' jobs through 2 machines, Processing 'n' jobs through 3 machines, No 2 jobs on 'n' machines. **Replacement models-** Replacement of items deteriorating with time, Replacement of items that fail completely, (No group replacement), Decision tree analysis.

MODULE –IV

[13 Periods]

Decision Theory Anatomy of Decision Theory: Decision Models: Probabilistic Decision Models: Maximum Likelihood Rule - Expected Payoff Criterion - Competitive Decision Models: Maximin, Minimax, Hurwicz, Laplace Decision Models.

MODULE-V**[12 Periods]**

A: Game theory: Introduction, two person zero - sum games, Saddle point, Dominance theory, description of other models and their managerial application.

B: Simulation: Introduction to basic concepts, Simulation procedures, Application of simulation, critical evaluation of software and using customized software.

Reference Books:

1. JK Sharma, Quantitative Techniques, McMillan
2. ND Vohra, Quantitative Techniques in Management, TMH
3. Anderson, Sweeney, Williams, Quantitative Methods for Business, Thomson
4. JK Sharma, Operations Research, McMillan

4. <https://www.youtube.com/watch?v=dJabVbR0lPI>
5. <https://www.youtube.com/watch?v=a0WNihfI7as>

Course Outcomes:

At the end of the course, the student will be able to:

CO1: Understand basic concepts importance of operation research.

CO2: Know the Transportation and Assignment models and its significance.

CO3: Apply Queuing theory and Sequencing Problems.

CO4: Learn the concepts of Decision Theory Anatomy of Decision Theory.

CO5: Design Game theory and simulations problems.

CO- PO Mapping (3/2/1 indicates strength of correlation) 3-Strong, 2-Medium, 1-Weak

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA II Semester		
Code: C1E14	BUSINESS ANALYTICS	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objective:

To understand the importance of ever-increasing volume, variety and velocity of data in organization and application of data analytical tools for decision making.

MODULE- I **[12 periods]**

Introduction to Data Analytics: Introduction to Data- Importance of Analytics- Data for Business Analytics –Big Data - Business Analytics in Practice. Data Visualization – Data Visualization tools, Exploring data using pivot tables.

MODULE- II **[13 periods]**

Descriptive Statistical Measures: Population and samples, Measures of location, Measures of Dispersion or variability, Measures of Association. Probability distributions– Discrete Probability distribution, Continuous Probability distribution, Random sampling from Probability Distribution, Distribution fitting and Data Modelling.

MODULE- III **[13 periods]**

A: Predictive Analytics: Karl Pearson Correlation Techniques - Multiple Correlation- Spearman’s Rank correlation-Simple and Multiple regression-Regressions by the method of least squares

B: Building good regression models: -Simple, Multiple and Logistics Regression, ANOVA- One way and Two Way ANOVA.

MODULE- IV **[13 periods]**

Data Mining : Scope of Data Mining, Data Exploration and Reduction, Types of Machine Learning, Unsupervised learning – Cluster analysis, Association rules; Supervised learning- Partition Data, Classification. Measuring Accuracy- prediction Accuracy, k-nearest neighbors.

MODULE- V **[13 periods]**

Simulation: Random Number Generation, Monte Carlo Simulation, What if Analysis, Verification and Validation of simulation model, Advantages and Disadvantages of Simulation, Risk Analysis, Decision Tree Analysis.

Reference books:

1. James Evans, Business Analytics, 2e, Pearson, 2017.
2. Camm, Cochran, Fry, Ohlmann, Anderson, Sweeney, Williams Essential of Business Analytics, Cengage Learning.
3. Thomas Eri, Wajid Khattack & Paul Buhler : Big Data Fundamentals, Concepts, drivers and Techniques by Prentice Hall of India, New Delhi, 2015
4. Akil Maheswari: Big Data, Upskill ahead by Tata McGraw Hill, New Delhi, 2016

5. Seema Acharya & Subhashini Chellappan: Big Data and Analytics, Wiley Publications, New Delhi, 2015.

4. <https://www.youtube.com/watch?v=ZWwpNJCCN4>
5. <https://www.youtube.com/watch?v=olFxW7kdtP8>

Course Outcomes:

At the end of the course, the student will be able to:

CO1: Understand the basic concepts of data analytics and its relevance to business.

CO2: Implement the various descriptive statistical measures and their application

CO3: Learn the tools of predictive analytics and their application for business analysis.

CO4: Understanding the basic concepts of data mining and its importance in business analytics.

CO5: Analyze the concepts of simulation and its application to solve business problems.

CO- PO Mapping (3/2/1 indicates strength of correlation) 3-Strong, 2-Medium, 1-Weak

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA II Semester		
Code:CIEM2	BUSINESS ANALYSIS (Report and Seminar)	L	T	P
Credits: MC		-	-	3

Prerequisites: NIL

Course Objectives:

The aim of this course is to enable students to develop case study analysis ability and presentation skills necessary for personality development and employability.

EXERCISES (Seminar Presentations)

1. Presentation on the history and evolution of the company
2. Presentation on SWOT analysis of the company
3. Presentation on the best practices in the functional systems and policies of the company.
4. Presentation on the success story of the founder/ chairman/ CEO of the company
5. Developing a case study or analyzing case studies of respective companies in various functional areas.

Note: Students have to submit a report on a company's Annual Report Analysis using MS-Excel to get the course grade (Satisfactory/ non- satisfactory) at the end of the semester.

Course Outcomes:

At the end of the course, the student will be able to:

CO1: Know the history and evolution of various companies globally.

CO2: Apply of SWOT analysis and also able to know the strengths and weaknesses of various companies.

CO3: Identify the best practices and policies of various companies

CO4: Know the various contemporary and emerging leaders and their success stories

CO5: Analyzing different cases of various companies. And will understand completely about a company through the evaluation in different dimensions.

CO- PO Mapping (3/2/1 indicates strength of correlation) 3-Strong, 2-Medium, 1-Weak

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA III Semester		
Code: C1E15	PRODUCTION AND OPERATIONS MANAGEMENT	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

The course aims to introduce concepts of operations management in an organization; it also offers the knowledge of product designing, plant layouts, process designing and management of materials.

MODULE – I

[12 Periods]

Introduction to Operations Management: Functional Subsystems of Organization, Definition, Systems Concept of Production, Types of Production Systems – Flow Shop, Job Shop, Batch Manufacturing, The Project, Productivity, Strategic Management – Corporate Strategic, Generic competitive Strategies, Functional Strategies, Gross Domestic Product and its impact, World Class Manufacturing.

MODULE – II

[13 Periods]

Designing operations: Product Design and Analysis [Definition], new product development-its concepts, Steps of Product Design, Process Planning and Design-Selection of Process, Process Selection Decision, Process Planning Design, Responsibilities of Process Planning Engineer, Steps in Process Planning, Process Research. Value Analysis/Value Engineering – History of Value Analysis/Value Engineering, Function, Aims, Value Engineering Procedure, Advantages and Application Areas; Standardization: Standardization Procedure, Advantages of Standardization, Application of Standardization, Ergonomic Considerations in Product Design.

MODULE – III

[13 Periods]

A: Plant Location: Factors Influencing Plant Location, Break-even Analysis. Single Facility Location, Multi-facility Location – Model for Multi-facility Location, Method of Transformation, Model to Determine X- Coordinates of New Facilities, Model to Determine Y-Coordinate.

B: Plant Layout- Plant layout introduction, Classification of Layout, Advantages and limitations of Product Layout, Advantages and limitations of Group Technology Layout, Layout Design Procedure.

MODULE – IV

[13 Periods]

Materials Management: Integrated Materials Management, Components of Integrated Materials Management- Materials Planning, Inventory Control, Purchase Management, Stores Management. Inventory Control- Inventory Decisions, Costs Trade Off. Models of Inventory, Operation of Inventory Systems, Quantity Discount, Implementation of Purchase Inventory Model, Purchasing Management, Stores Management – Incoming Materials Control, Store Accounting, Obsolete Surplus and Scrap Management, ABC Analysis, XYZ Analysis, VED Analysis, FSN Analysis, SDE Analysis.

MODULE – V**[13 Periods]**

Project and Maintenance Management: Concept of Project - Types of Projects - Feasibility Report - Detailed Project Report - Project management techniques-PERT and CPM - Maintenance Management- Equipment life cycle - Requirements for effective maintenance management.

Reference Books:

1. Ajay K Garg, “**Production and Operations Management**”, TMH, 2012.
2. K.Ashwathappa, Sreedhar Bhat, “**Production and Operations Management**”, HPH, 2012.

4. <http://nptel.ac.in/courses/110106044/>
5. <https://www.youtube.com/watch?v=obzp6biyAN0>

Course Outcomes:

At the end of the course, the student will be able to:

- CO1: Know the basics of production and operations management.
 CO2: Analyze product designing, process designing and value engineering.
 CO3: Appreciate various facility location models and plant layout designs.
 CO4: Learn the concept of integrated materials management and various inventory control techniques.
 CO5: Understand the basic concepts of projects and its maintenance management.

CO- PO Mapping (3/2/1 indicates strength of correlation) 3-Strong, 2-Medium, 1-Weak											
COs	Programme Outcomes(POs)								Program Specific Outcomes(PSOs)

CO4	3		3	3	3		2	3	3		
CO5	3		3		3					3	3

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA III Semester		
Code: C1E16	MANAGEMENT INFORMATION SYSTEM & ERP	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives: The objective of this course is to introduce the Management Information Systems along with the concepts of enterprise resource planning (ERP) and their application in organizations.

MODULE – I

[13 Periods]

Introduction: MIS importance, definition, nature and scope of MIS, Structure and Classification of MIS, Information and Systems Concept, Types of Information, Information systems for competitive advantage.

Business Applications of Information Systems: E-Commerce, ERP Systems, DSS, Business Intelligence and Knowledge Management System.

MODULE – II

[12 Periods]

Management of IS: Information system planning, system acquisition, systems implementation, evaluation & maintenance of IS, IS Security and Control.

MODULE – III

[13 Periods]

A: Building Information Systems: System Development Stages, System Development Approaches, Systems Analysis and Design- Requirement Determination, Strategies for Requirement Determination.

B: Structured Analysis Tools: System Design – Design Objectives, Conceptual Design, Design Methods, Detailed system design.

MODULE – IV

[13 Periods]

Introduction to ERP: Overview of ERP, MRP, MRPII and Evolution of ERP, Integrated Management Systems, Reasons for the growth of ERP, Business Modeling, Integrated Data Model, Foundations of IS in Business, Obstacles of applying IT, ERP **Market- ERP Modules:** Finance, Accounting Systems, Manufacturing and Production Systems, Sales and Distribution Systems, Human Resource Systems, Plant Maintenance System, Materials Management System, Quality Management System, ERP System Options and Selection, ERP proposal Evaluation.

MODULE – V

[13 Periods]

Benefits of ERP: Reduction of Lead Time, On-Time Shipment, Reduction in Cycle Time, Improved Resource Utilization, Better Customer Satisfaction, Improved Supplier Performance, Increased Flexibility, Reduced Quality Costs, Improved Information Accuracy and Design Making Capabilities.

ERP Implementation and Maintenance: Implementation Strategy Options, Features of Successful ERP Implementation, Strategies to Attain Success, User Training, Maintaining ERP & IS.

4. <http://nptel.ac.in/courses/122105022/>
5. <http://nptel.ac.in/courses/110999907/>

Course Outcomes:

At the end of the course, the student will be able to:

CO1: Learn the basics of management information system and the business applications of information system.

CO2: Learn knowledge of managing an Information System efficiently.

CO3: Understand the process of system design and can build an Information System.

CO4: Identify about various models of ERP and their applications in an organization.

CO5: Apply the various benefits of ERP system and also learn about the implementation and maintenance of an ERP system.

CO- PO Mapping (3/2/1 indicates strength of correlation) 3-Strong, 2-Medium, 1-Weak

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA III Semester		
Code: C1E17	PROFESSIONAL ELECTIVE-I RETAILING MANAGEMENT [MARKETING]	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objective: To facilitate the students about the concepts of Retailing through cases so that interested students can choose retailing as their career.

MODULE –I

[13 Periods]

Introduction to Retail Management - Meaning of Retail & Retailing, History, types, functions, utilities, theories of retailing, e-tailing, structure of Indian retail industry, retailing in Asia, global retailing, retailing in Europe, service retailing, FDI retailing, Rural marketing, ethics in retailing.

Case: The Classic story.(Aditya page no 283).

Case: The Panwallah. (Aditya Prakash page no 287).

MODULE –II

[13 Periods]

Understanding Shoppers & Shopping - Shopping Environment, shopping in a Socio Cultural Contest, shopping process shopping behavior, demographics of Indian shoppers, psychographic profile of Indian shoppers, lifestyle of Indian shoppers, shopping patterns in India.

Case: Multinational Fast Food Chains in India. Retail Management (Suja Nair page no 474).

Case: Changing Indian Consumers. (Aditya page no 258).

Case: Tanishq. (Suja Nair page no 440).

MODULE –III

[13 Periods]

Delivering Value through Retail Functions - Classification of formats, ownership-based, store based, non-store based, other retail formats, Value Based Model of store format choice, attribute based model of store format choice, the competitive market place, Marketing Structure, the demand side of retailing, non price decisions, types of competition, evolution of retail competition, future changes in retail competition.

Case: Nirula's. (Suja Nair Page no 448).

Case: Hot Breads. (Suja Nair page no 452).

MODULE –IV

[13 Periods]

Pricing & Supply Chain Management - Pricing Objectives & Policies, Interactive Pricing Decisions, different Pricing Strategies, Price Adjustment Strategies. SCM-introduction, drivers of SCM, SCM & competitive advantages, types of supply chain-supply chain length, width, control of supply chain, framework of Supply Chain Management-SCM network structure, Supply Chain Business Process, SCM components, Retail Inventory Management, Retail Logistics Management, EDI in SCM.

Case: Café Coffee Day. (Suja Nair page no 434).

Case: Shoppers stop. (Suja Nair page no 470).

MODULE –V

[12 Periods]

Retail Buying & Managing Retail Operations-objectives of buying, organization buying, retailing buying behavior, models of buying behavior, buyer-responsibilities, merchandising & assortment plans-merchandise plan, merchandise plan for basic stocks retail buying groups, negotiations in retail, contract in retail, store layout & design, merchandise display-fixtures, positioning of merchandise, materials & finishes – floors, interior walls, ceilings, lightings, music, graphics-exterior signage, interior signage, layouts for e-tailers.

Case: Godrej and Boyee's. (Suja Nair page no 466).

Text book

1. Piyush Kumar Sinha, Dwarika Prasad Uniyal, Managing Retailing, 2nd Edition, Oxford, 2012.

5. <https://www.youtube.com/watch?v=YjQNiCvVY5A>

Course outcome:

At the end of the course, the student will be able to:

CO1: Understand Modern Retailing Concepts and will able to link it to cases to the present Retailing Trends.

CO2: Know the relevance of shopper's Behaviour and shopping environment.

CO3: Analyze classification and other retail formats in a competitive market place.

CO4: Evaluate the Pricing Objectives & Policies and supply chain management.

CO5: Applying Retail Buying & Managing Retail Operations

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA III Semester		
Code: C1E18	PROFESSIONAL ELECTIVE-I SECURITY ANALYSIS AND PORTFOLIO MANAGEMENT [FINANCE]	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

To make the student better understand the investment environment, alternatives, process and valuation of securities. Also enables the student to gain knowledge of portfolio management and mutual funds.

MODULE – I

[13 Periods]

Investment Environment in India: overview of Indian financial system securities trading in stock markets, Real Vs Financial Assets, Investment alternatives, the investment management process, Investment Vs Speculation.

Security Analysis: Fundamental Analysis, Technical Analysis, EMH [Efficient Market Hypothesis], Investor psychology and investment decisions.

MODULE – II

[12 Periods]

Portfolio Analysis: The returns and risks from investing- Markowitz portfolio Theory, Mean- variance approach, portfolio selection-efficient portfolios, The Sharpe single index model-Capital Asset Pricing Model(CAPM), Arbitrage Pricing Theory (APT).

MODULE – III

[13 Periods]

A. Bond Valuation: Types of bonds, Interest rates, Term Structure of interest rates, measuring bond yields, Yield to Maturity, Yield to Call, Yield to Maturity, Holding Period Return.

B. Bond pricing theorems: bond duration, Active and Passive bond management Strategies, bond immunization, bond volatility, bond convexity.

MODULE – IV

[13 Periods]

Equity Valuation: Equity Analysis & Valuation, Balance sheet Analysis equity valuation models, intrinsic value & market price, The P/E Ratio & Earnings multiplier Approach, CAGR, Price/Book value, Price/ Sales ratio, Economic Value Added [EVA] and MVA.

MODULE – V

[13 Periods]

Mutual Funds: Introduction to Mutual funds, Types of Mutual Funds Schemes, Structure, NAV[Net Asset Value],Risk and Return, Performance Evaluation Models-Sharpe Model, Treynor Model, Jensen Model, FAMA's Decomposition, Trends in Indian Mutual Funds.

Reference Books:

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA III Semester		
Code: C1E19	PROFESSIONAL ELECTIVE-I LEARNING AND DEVELOPMENT [HUMAN RESOURCE]	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objective:

To understand the concept of Learning with emphasis on training and development and its role in organizational Development.

MODULE – I

[13 Periods]

Introduction to Learning: Concepts of Learning, Phases in Learning, Learning theories - Reinforcement theory, Social learning Theory, Goal theories, need theories, expectancy theory, Adult Learning theory, Information Processing Theory, The Learning Process, The Learning Cycle, Instructional emphasis for learning outcomes.

MODULE – II

[13 Periods]

Training Strategy and Designing Training: The evolution of Training's Role, Strategic Training and development Process, Training needs in different strategies, Models of Training Department. Training needs Assessment, Reasons for planned training. Designing the training program, developing the group and the climate, Trainers and training styles- evaluating training and Follow-on support.

MODULE – III

[12 Periods]

A. Training methods - Traditional methods- Presentation methods, Hands-on methods, Group Building Methods, e-learning and use of technology in training- Technology influence on training and learning, Technology and multimedia

B. computer- based training: developing effective online learning, blended learning, mobile technology and training methods, technologies for training Administration.

MODULE – IV

[13 Periods]

Development: Employee development, Essential ingredients of Management Development, Strategy and Development, Approaches to Employee Development – Formal education, Assessment, Job experiences, Interpersonal Relationships, the development Planning Process, company's strategies for providing development, e-learning and employee development. Electronic MDPs.

MODULE – V

[13 Periods]

Contemporary issues in Training and Development: Orientation training, diversity training, sexual harassment training, team-training, cross functional teams, cross cultural training, training for talent management and competency mapping. Career Management, career management systems, Career paths, Career Plateauing, Coping with career breaks, Training for virtual work arrangements.

Code: C1E20	PROFESSIONAL ELECTIVE-I MANAGEMENT OF STARTUP [ENTREPRENEURSHIP]	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objective:

To understand new venture creation opportunities, its resources and requirements for Enterprise Startup.

MODULE – I

[13 Periods]

Startup opportunities: The New Industrial Revolution – The Big Idea- Generate Ideas with Brainstorming- Business Startup - Ideation- Venture Choices - The Rise of The startup Economy - The Six Forces of Change- The Startup Equation- The Entrepreneurial Ecosystem –Entrepreneurship in India- Government Initiatives.

MODULE – II

[13 Periods]

Startup Capital Requirements and Legal Environment: Identifying Startup capital Resource requirements - estimating Startup cash requirements - Develop financial assumptions- Constructing a Process Map - Positioning the venture in the value chain - Launch strategy to reduce risks- Startup financing metrics - The Legal Environment- Approval for New Ventures- Taxes or duties payable for new ventures.

MODULE – III

[13 Periods]

A: Starting up Financial Issues: Feasibility Analysis - The cost and process of raising capital – Unique funding issues of a high-tech ventures - Funding with Equity

B: Financing with Debt: Funding startups with bootstrapping- crowdfunding- strategic alliances.

MODULE – IV

[13 Periods]

Startup Survival and Growth: Stages of growth in a new venture- Growing with the market - Growing within the industry- Venture life patterns- Reasons for new venture failures- Scaling Ventures - preparing for change - Leadership succession. Support for growth and sustainability of the venture.

MODULE – V

[12 Periods]

Planning for Harvest and Exit: Dealing with Failure: Bankruptcy, Exit Strategies- Selling the business - Cashing out but staying in-being acquired- Going Public (IPO) – Liquidation.

Code: C1E21	PROFESSIONAL ELECTIVE-III CONSUMER BEHAVIOR [MARKETING]	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

The aim of this course is to enable MBA students to make marketing decisions keeping in mind the consumer behavior. It will help them to design primary market research studies for the mutual benefit of consumers and organizations.

MODULE – I

[13 Periods]

Introduction to Consumer Behavior: Defining consumer behavior-Understanding Consumer through research process, Consumer behavior in a world of economic instability, Rural Consumer Behavior, Consumer Segmentation, Targeting and Positioning, Segmentation & Branding, Rural Markets.

MODULE – II

[13 Periods]

Environmental Influences on Consumer behavior: Influence of Culture, SubCulture, Social Class, Social Group, Family and Personality, Cross-Cultural Consumer Behavior.

MODULE – III

[13 Periods]

A: Consumer as an Individual: Personality and Self-concept, Consumer Motivation, Consumer Perception, Consumer Attitudes and Changing Attitudes.

B: Consumer learning process Consumer learning and Information Processing, Communication and Consumer Behavior.

MODULE – IV

[12 Periods]

Consumer Decision Making Processes: Problem Recognition, Search and Evaluation, Purchasing processes, Post purchase behavior, Models of Consumer decision making, Consumers and the diffusion of Innovations.

MODULE – V

[12 Periods]

Consumerism and Ethics: Roots of Consumerism, Consumer Safety, Consumer Information, Consumer Responsibilities, Marketer responses to consumer issues, Marketing Ethics towards Consumers.

Code: C1E25	PROFESSIONAL ELECTIVE – III MARKETING ANALYTICS [MARKETING]	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

To provide an understanding of Fundamentals of Marketing Analytics, and to elaborate on the scope of MS Excel for conduction of Marketing Analytics, to highlight the importance of Management of Customer Expectations through Marketing Analytics, to orient on the usage of Marketing Analytics for Product Pricing and impart knowledge on Market Segmentation methods and Advertising using Marketing Analytics.

MODULE – I

[13 Periods]

Introduction to Marketing Analytics: Definition, Need and Scope of Marketing Analytics, Marketing Analytics Vs Marketing Research, Levels in Marketing Analytics, Adoption and Application of Marketing Analytics, Marketing Analytics and Business Intelligence. MS Excel as a Tool for conduction of Marketing Analytics. Using MS Excel to Organize and Summarize Marketing Data: Creation of Pivot Tables and Organizing Data.

MODULE – II

[13 Periods]

Summarizing Marketing Data: Summarizing Revenue Data: Month-wise and Product-wise. Slicing & Dicing of Data: Pareto Principle, Report Filters and Slicers. Demographic Analysis: Analyzing Sales Data by Age, Gender, Income and Location, Construction of Crosstabs of Two Demographic Variables. Using GETPIVOT Function for Pulling Data. Adding Data Labels and Data Tables.

MODULE – III

[13 Periods]

Customer Analytics: Customer Journey Mapping and the Process of Mapping (How to). Metrics for Tracking Customer Experience: Customer Feedback Metrics & Behavior Derived Customer Metrics. Customer Persona, Building a Customer Persona and its Benefits, Parts of Buyer Persona. What Customer Wants: Using Conjoint Analysis for Levels in Consumer Decision Process in Product Choices and Product Attributes. Customer Lifetime Value (CLV). Calculating Customer Lifetime Value: Creating the Basic Customer Value Template, Measuring Sensitivity Analysis with Two-Way Tables, Estimating the Chance if Customer is still Active.

MODULE – IV

[13 Periods]

Pricing Analytics: Pricing, Goals of Pricing, Price Elasticity, Estimating Linear and Power Demand Curves, Using Excel Solver to Optimize Price, Incorporating Complementary Products, Using Solver Table to Price Multiple Products and Finding Demand Curve for All Products. Price Bundling, Bundling Prices to Extract Consumer

Surplus, Mixed Bundling, Using Evolutionary Solver to Find Optimal Bundle Prices. Price Skimming.

MODULE – V

[12 Periods]

A. Segmentation & Promotion Analytics: Segmentation Analytics: Cluster Analysis and its Applications, Location-wise Clustering, Using Solver to find Optimal Clusters. Using Conjoint Analysis to Segment a Market, Using Decision Trees for Segmenting the Market.

B. Promotion Analytics: Promotions and Types of Promotions, Discounting & Types of Discounting. Measuring the Effectiveness of Advertising: The Adstock Model. Media Selection Models: Linear Media Allocation Model, Quantity Discounts, Monte Carlo Media Allocation Simulation. Pay per Click Advertising.

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA III Semester		
Code: C1E26	PROFESSIONAL ELECTIVE-III FINANCIAL ANALYTICS [FINANCE]	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

To enable understanding of various aspects in Financial Analytics, to help understand time value money, risk and return aspects, to impart knowledge of various capital budgeting techniques and elucidate various aspects of Equity Valuation, enlighten on the aspects of Bond Valuation.

MODULE – I

[13 Periods]

Techniques of Financial Statement: Horizontal, Vertical Analysis, Trend Analysis, Ratio Analysis, Liquidity, Profitability, Solvency and Turnover Ratio, Valuation of Ratios, Statement of Cash Flow, Classification of Cash Flow, Computing Net Cash Flow: Operating, Investing and Financing Activities. Reporting and Interpretation using Spreadsheet.

MODULE – II

[13 Periods]

Time Value of Money: Future Value: Simple, Compound Interest and Annuity, Present Value: Discounted, Annuity, Equated Loan Amortization, Perpetuity using Spreadsheets.

Risk and Return: Holding Period Returns, Arithmetic Mean vs Geometric Mean, Risk: Standard Deviation, Coefficient of Variation, Beta, Covariance of Stock.

MODULE – III

[12 Periods]

Capital Budgeting Techniques: Payback Period, Accounting Rate of Return, Net Present Value, Internal Rate of Return, Profitability Index, Decision Tree, Cash Flow in Capital Budgeting, Cost of Capital, Advance Capital Budgeting Techniques, Adjusted Present Value Approach, Competing Project Risk using Spreadsheets.

MODULE – IV

[13 Periods]

Equity Valuation: Calculation of Portfolio Mean and Variance, Capital Asset Pricing Model (CAPM), Variance: Covariance Matrix, Estimating Beta and Security Market Line. Industry Analysis, Economic Analysis and Technical Analysis in Stock, Real Option in Capital Budgeting.

MODULE – V

[13 Periods]

Bond Valuation: Duration, Duration of Bond with Uneven Payments, Immunization Strategies, Modeling the Term Structure, Calculating Expecting Bond Return in a Single and Multi-period Framework, Semi-annual Transition Matrix, Computation of Bond Beta.

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA III Semester		
Code: C1E27	PROFESSIONAL ELECTIVE-III HUMAN RESOURCE ANALYTICS [HUMAN RESOURCE]	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objective:

To provide an overview of evolution of HRM and its journey towards Analytics and highlight the need, concepts and scope of HR Analytics linked with business outcomes, To elucidate the methods of capturing, examining & purifying data and to introduce the aspect of HR Metrics in the context of HR Analytics, To impart knowledge of conduction of HR Analytics for key HR Processes using MS Excel, To provide an overview of various tools and software technologies used for conduction of Descriptive HR Analytics and Visualization of HR Data, To provide a futuristic perspective of Predictive and Prescriptive HR Analytics.

MODULE-I

[13 Periods]

Introduction to HR Analytics: History of Different HRM Perspectives, Transition from HRM to HCM and Gaining Sustainable Advantage through HCM. HR Analytics and Changing Role of HR Professionals. Importance and Scope of HR Analytics. Significance of HR Analytics, Benefits of HR Analytics. Levels of Analysis and Conducting analytics. Key Influencers of the HR Analytics Process. Big Data Era in HR Analytics, HR Analytics – Linkage to Business Outcomes.

MODULE –II

[13 Periods]

Understanding HR Analytics: Conducting HR/Workforce Analytics: Models of HR Analytics, How to Conduct HR Analytics. Understanding HR Data: Importance of Data, Types and Scales of Data; Methods of Capturing Data, Data Examination & Purification. Understanding various HR Metrics from the perspective of HR Analytics.

MODULE – III

[12 Periods]

Analytics for Key HR Processes Using MS Excel: HR Analytics for Recruitment & Selection, Training & Development, Performance Appraisal, Talent Management, Employee Engagement, Compensation Management and Expatriate Management.

MODULE-IV

[13 Periods]

Descriptive Analytics: Overview of Select Tools for Conduction HR Analytics: MS Excel, R, Tableau, Power BI, Python, SPSS & PSPP. Descriptive Analytics in HR: HR Dashboards using MS Excel, Slicing and Dicing of HR Data using MS Excel Pivot Table Applications, Data Visualization for Key HR processes.

MODULE-V

[13 Periods]

Predictive & Prescriptive HR Analytics: Predictive HR Analytics: Correlation, Linear and Multiple Regression, Factor Analysis and Cluster Analysis, Comparison of Means and Analysis of Variance for Manpower Demographics, Employee Satisfaction, Training Effectiveness etc. Prescriptive HR Analytics, Predictive vs Prescriptive HR

Analytics, Future of HR Analytics.

Reference Books:

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA III Semester		
Code: C1E29	PROFESSIONAL ELECTIVE – IV DIGITAL MARKETING [MARKETING]	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objective:

The objective of this course is to expose the student to digital marketing mainly for lead generation and retention activities in both business to business and business to consumer environments.

MODULE-I

[12 Periods]

Introduction of Digital Marketing: Digital Marketing meaning- need of digital marketing- Digital Marketing Vs Traditional Marketing- Digital Marketing Process- Creating digital marketing strategy- Digital Marketing era and the way forward.

MODULE-II

[14 Periods]

Search Engine Optimization: What is Search Engine?, Type of Search Engines, Search Engine Optimization Types- SEO life cycle- Difference between Organic and Inorganic- Keyword Research -Google Trends- On-Page Optimization- Off-Page Optimization.

Social Media Optimization: Social Media- importance- Social Media Marketing- Branding - Paid Advertising – Blogging- Facebook –Twitter- LinkedIn- Slideshare- Social Media Management Tool (SMMT).

MODULE-III

[12 Periods]

A: Google Adwords: Navigating through Google AdWords- Understanding Google AdWords Structure- Writing Ads in Google AdWords

B: Google Tools: Keyword Planner Tool- Google Webmaster Tool- Google Analytics- Reporting and Analysis Tool.

MODULE-IV

[13 Periods]

Email Marketing: How Email works?- Challenges while sending bulk emails- Solution over challenges- Types of email marketing- Email marketing Tools- Designing of Email template- Email marketing scheduler- Email marketing success tracking - Lead Generation For Business.

MODULE-V

[13 Periods]

Other forms of Digital marketing: Mobile marketing- Inbound marketing-content marketing- E-commerce marketing- affiliate marketing- YouTube channel marketing.

Code: C1E30	PROFESSIONAL ELECTIVE-IV FINANCIAL DERIVATIVES AND RISK MANAGEMENT [FINANCE]	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objective: To give an understanding about the derivatives in stock, commodity and Forex markets.

MODULE-I

[13 Periods]

Introduction to Derivatives – Development and Growth of Derivative Markets, Types of Derivatives, Fundamental linkages between spot & Derivative Markets, The Role of Derivatives Market, Uses & Misuses of derivatives. Participants in the derivatives market, Insider Trading.

MODULE –II

[13 Periods]

Future and Forward Market structure of forward and Future Markets, Mechanics of future markets, Hedging Strategies, Using futures, Determination of forward and future prices, Interest rate futures, Currency futures and Forwards.

MODULE –III

[12 Periods]

A: Options – Distinguish between Options and Futures, Structure of Options Market, Principles of Option Pricing, Option Pricing Models: The Binomial Model, The Black – Scholes Merton Model.

B: Basic Option Strategies, Advanced Option Strategies, Trading with Options, Hedging with Options, Currency Options.

MODULE –IV

[13 Periods]

Swaps – Concept and Nature, Evolution of Swap Market, Features of Swaps, Major types of Swaps, Interest Rate Swaps, Currency Swaps, Commodity Swaps, Equity Index Swaps, Credit Risk in Swaps, Credit Swaps, using Swaps to Manage Risk, Pricing and Valuing Swaps.

MODULE –V

[13 Periods]

Commodity Market Derivatives- Introduction, Types, Commodity Futures and Options, Swaps. Commodity Exchanges- MCX, NCDEX- Role, Functions & Trading. (Refer : M.Ranganatham & R.Madhumathi)

Code: C1E31	PROFESSIONAL ELECTIVE-IV STRATEGIC HUMAN RESOURCE MANAGEMENT [HUMAN RESOURCE]	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objective:

To give an understanding about strategic Human Resource planning, implementation, training and development and evaluation.

MODULE-I

[13 Periods]

Human Resource Strategy: Introduction to Strategic Human Resource Management - valuation objectives and Importance of Human Resources Strategy- Strategic fit – A conceptual framework -Human Resources contribution to strategy - Strategy driven role behaviors and practices – Theoretical Perspectives on SHRM approaches – Linking business strategies to HR strategies.

MODULE –II

[13 Periods]

Strategic Human Resource Planning: Objectives, benefits, levels of strategic planning- Activities related to strategic HR Planning-Basic overview of various strategic planning models-Strategic HR Planning model-Components of the strategic plan.

MODULE – III

[12 Periods]

A: Strategy Implementation: Strategy implementation as a social issue-The role of Human Resource-Workforce utilization and employment practices

B: Resourcing and Retention strategies-Reward and Performance management strategies.

MODULE-IV

[13 Periods]

Strategic Human Resource Development: Concept of Strategic Planning for HRD Levels in Strategic HRD planning-Training and Development Strategies-HRD effectiveness.

MODULE-V

[13 Periods]

Human Resource Evaluation: Overview of evaluation - Approaches to evaluation, Evaluation Strategic contributions of Traditional Areas - Evaluating Strategic Contribution of Emerging Areas-HR as a Profit center and HR outsourcing strategy.

Code: C1E32	PROFESSIONAL ELECTIVE-IV CREATIVITY, INNOVATION AND ENTREPRENEURSHIP [ENTREPRENEURSHIP]	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objective:

To understand the creativity and innovation aspects in enterprise management.

MODULE – I

[13 Periods]

The Creativity Phenomenon: Creative Cerebration- Creative Personality and Motivation –Creative Environment- Creative Technology- Creativity Training- Puzzles of Creativity- Spiritual and social roots of creativity- Essence, Elaborative and Expressive Creativities- Quality of Creativity- Existential, Entrepreneurial and Empowerment Creativities – Criteria for evaluating Creativity- Credible Evaluation- Improving the quality of our creativity.

MODULE – II

[13 Periods]

Mastering Creative Problem Solving: Structuring of ill- defined problems- Creative Problem solving- Models of Creative problem solving- Mechanisms of Divergent thinking- Useful mechanisms of convergent thinking- Techniques of Creativity Problem solving

MODULE – III

[13 Periods]

A: Creative Intelligence: Creative Intelligence abilities - A model of Creative Intelligence – Convergent thinking ability - Traits Congenial to creativity - Creative Personality and forms of creativity-

B: Motivation and Creativity: Blocks to creativity- fears and Disabilities- Strategies for Unblocking- Energy for your creativity- Designing Creativogenic Environment.

MODULE – IV

[13 Periods]

Innovation Management: Concept of Innovation- Levels of Innovation- Incremental Vs Radical Innovation-Inbound and Outbound Ideation- Open and Other Innovative Ideation Methods- Theories of outsourcing New Product Development: Transaction Cost, Resource Based, Resource Dependence, Knowledge Based Theories.

MODULE – V

[12 Periods]

Micro and Macro Perspectives of Innovation: Systems Approach to Innovation- Innovation in the context of Emerging Economies- Organizational factors affecting innovation at the firm level- Leadership and Innovations- Open Innovation- Innovation Framework- Innovations developed by Open Technology Communities.

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA III Semester		
Code: C1E33	OPEN ELECTIVE-I INTERNATIONAL BUSINESS	L	T	P
Credits: 3		3	-	-

Prerequisites: NIL

Course Objectives:

To introduce the basics of International business in an era of rapid growth and expansion is an essential course that would amplify the strategic and tactical dimensions of businesses hence promoting and instilling the idea of global opportunities.

MODULE – I

[13 Periods]

Global Imperative : An Overview – International Business: Global Perspective – Emergence of Globalization – Drivers of Globalization – Internationalization Process – Stages in International Business – Approaches to International Business; the World of International Business: Regional and Global Strategy – The Multinational Enterprise – Triad and International Business – International Trade Theories; Environment of International Business-Cultural Environment and Political Environment.

MODULE – II

[13 Periods]

Global Business and National Regulation: Rationale for Government Intervention – Forms of Trade Regulation at National Level-Tariff and Non-Tariff Barriers. Regional Economic Integration: Levels of Economic Integration – Benefits and Costs of Economic Integration-Major Trading Blocs: EU, NAFTA, ASEAN, SAARC and BRICS, G20. Multilateral Regulation of Trade and Investment-Basic Principles of Multilateral Trade Negotiations – GATT and its early Rounds – World Trade Organization – Structure and Functions – TRIPs and TRIMs-WTO and India – UNCTAD.

MODULE – III

[13 Periods]

Global Business and Entry Strategies: Global Market Entry Strategies – Exporting, Licensing, Franchising, Contract Manufacturing, Assembly and Integrated Local Manufacturing. Global Ownership Strategies: Strategic Alliance – Types of Strategic Alliances – Selection of Strategic Alliance Partner, Managing and Sustaining Strategic Alliance – Cost and Benefit Analysis of Entry Strategies: Entry Analysis and Entry Strategy Configuration.

MODULE – IV

[13 Periods]

Global E-Business: Conceptual Framework of E-Business – Prerequisites for Effective E-Business Transactions – E-Enabled Business Process Transformation

and Challenges – E-Business Technology and Environment – E-Business Applications – E-Business Models – Alternative E-Business Strategies – Global E-Marketing – Electronic Processing of International Trade Documents – Policy Framework for Global E-Business.

MODULE – V

[12 Periods]

Managing Global Business Perspectives : Strategy and Global Organization – Global Strategic Planning – Going Global and Implementing Strategies – Intercultural Communications – Intercultural Human Resources Management in Global Context.

Code: C1E34	OPEN ELECTIVE –I	L	T	P
Credits: 3	QUALITY MANAGEMENT	3	-	-

Prerequisites: NIL

Course Objectives:

The objective of this course is to facilitate students appreciate the quality concepts and develop an understanding of tools and techniques relating to total quality management.

MODULE – I

[10 Periods]

Principles and Practices-I: Introduction,- Gurus of TQM,- Historic Review,- Benefits of TQM-Leadership, characteristics of Quality leaders.-The Deming Philosophy- Quality councils-Strategic Planning- Customer Satisfaction- Customer perception of Quality-service Quality, -Customer Retention-Employee Involvement-Employee survey-Empowerment-Gain sharing-Performance Appraisal.

MODULE – II

[10 Periods]

Principles and Practices-II: Continuous process Improvement - the Juran trilogy - The PDCA Cycle-Kaizen- Reengineering. Supplier Partnership- Partnering-Sourcing-Supplier Selection- Supplier rating-Performance Measures-Basic concept-Strategy-Quality cost- Benchmarking- reasons for benchmarking-Process-Understanding current performance-Pitfalls and criticism of benchmarking.

MODULE – III

[12 Periods]

A: Tools and Techniques-I: Information Technology- Computers and the quality functions –Information quality Issues-Quality management System- Benefits of ISO registration-ISO 9000 series Standards-Internal Audits.

B: Environmental Management System: ISO 14000 series-Benefits of EMS-Relation to Healthy and safety-Quality Function Deployment-The voice of the Customer- Building a House of Quality-QFD Process.

MODULE – IV

[10 Periods]

Tools and Techniques-II: Quality by Design- Benefits-Communication Model-Failure Mode and Effective Analysis-Failure Rate, FMEA Documentation-The process of FMEA Documentation-Product liability-Proof and Expert Witness. Total Productive Maintenance- promoting the Philosophy and Training-Improvements and needs-Autonomous Work groups.

MODULE – V

[12 Periods]

Management Tools: Management Tools,-Introduction-Forced field Analysis-Tree diagram- Process decision Program Chart-Statistical Process Control-Cause and Effect diagram-Histogram-state of control– Process Capability- Experimental Design-Hypothesis-Orthogonal Design-Two factors and Full factors-Quality Strategy for Indian Industries-Quality Management in India.

5. <http://nptel.ac.in/courses/110105039/25>

Course Outcomes:

At the end of the course, the student will be able to:

CO1: Understand the basics of TQM and its evolution.

CO2: Identify the various principles and practices under TQM.

CO3: Appreciate the Quality management System and the standards like ISO, EMS and QFD etc.

CO4: Analyze the tools and techniques relating to total quality management.

CO5: Evaluate the various management tools under Total Quality Management system

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA III Semester		
Code: C1E35	OPEN ELECTIVE –I PROJECT MANAGEMENT	L	T	P
Credits: 3		3	-	-

Prerequisites: NIL

Course Objectives:

The objective of this course is to lay an important foundation to students in managing projects with a special focus on every phase such as project planning, execution, monitoring and evaluation.

MODULE – I

[13 Periods]

Introduction: Introduction-Project management-What is Project Management-why Project Management-Project Lifecycle- Project Management Research in brief, Project Management today, Organization strategy and structure and culture, Forms of organization structure, stakeholder management, organization culture, creating a culture for Project Management.

MODULE – II

[13 Periods]

Project Planning: Defining the project Planning, Approaches to project screening and selection, Work breakdown structure, financial Module, Getting Approval and compiling a project charter, setting up a monitoring and controlling process.

MODULE – III

[13 Periods]

A: Project Execution: Initiating the Project, Controlling and Reporting project objectives, conducting project Evaluation.

B: Managing Risk: Four Stage Process, risk management an integrated approach, cost Management, Creating a project Budget.

MODULE – IV

[13 Periods]

Leading Project Teams: Building a project Team, Characteristics of a Effective project Team, achieving cross-functional cooperation, virtual project teams, Conflicts management, Negotiations

MODULE – V

[13 Periods]

Performance Measurement and Evaluation: Project control cycles, monitoring project performances, earned value management, Human factors in project Evaluation and control, Project termination, Types of project terminations, Project management: current and future trends in project management.

3. <http://nptel.ac.in/courses/110104073/>
4. <http://nptel.ac.in/courses/110105039/14>

Course Outcomes:

At the end of the course, the student will be able to:

- CO1: Understand the basic concepts of project management and its life cycle.
 CO2: Plan a project and identify various approaches to project screening and selection.
 CO3: Evaluation of project and manage the risk
 CO4: Creating a project team and can manage the conflicts and negotiations.
 CO5: Evaluating the current and future trends in project management

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA III Semester		
Code: C1E36	OPEN ELECTIVE –I R- PROGRAMMING	L	T	P
Credits: 3		3	-	-

Prerequisite: NIL

Course Objectives:

To provide basic knowledge in the area of R-Programming by explaining methods to explore, import, export and manipulate data and data frames to impart knowledge on hypothesis tests for estimating or predicting statistical methods

MODULE I

[10 Periods]

R Programming, Overview and History of R, Getting Help, R Packages: Loading, Installing and Managing.

MODULE II

[10 Periods]

Data Definition & Control Structures, Data definition types, constants, variables, R data types and objects, Reading and writing data.

MODULE III

[13 Periods]

Expressions: Arithmetic, Logical, Precedence rules Control Structures: Sequencing, Input and output statements, Assignment statement, Control Structures: Selection, Repetition, Combination, Functions, scoping rules and loop functions, Flow Control

MODULE IV:

[9 Periods]

Exploring Data with R, Import, export and manipulate data and data frames, Statistical summaries of continuous and categorical data.

MODULE V:

[10 Periods]

Hypothesis tests, and simple regression models, Linear models like ANOVA, linear regression and mixed models, generalized linear models, Basic graphics & reports of statistical analyses

Reference Books:

1. Wickham, Hadley, and Garrett Grolemund. "R for Data Science": Import, Tidy, Transform, Visualize, and Model Data. "O'Reilly Media, Inc.", 2016.
2. Matloff, Norman. The art of R programming: A tour of statistical software design. No Starch Press, 2011.

E Resources:

1. <https://www.youtube.com/watch?v=3iSKFCKLUsl>
2. https://onlinecourses.nptel.ac.in/noc19_ma33/preview

Course Outcomes:**At the end of the course, students will be able to**

CO1: Know about R programming overview

CO2: Learn how to programme In R for data analysis

CO3: Understand concepts and terminology used in R-programming

CO4: Able to demonstrate the procedure to explore, import, export and manipulate the data.

CO5: To formulate hypothesis and testing of hypothesis for predicting models using Regression and other statistical tools for the given data.

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA III Semester		
Code: C1E37	OPEN ELECTIVE-I	L	T	P
Credits:3	ENVIRONMENT AND SUSTAINABILITY MANAGEMENT	3	-	-

Prerequisites: NIL

Course Objectives:

Sensitizing the business professionals on their affirmative role in environmental protection through sustainable development practices and their Implications on Economic Growth by adopting appropriate valuation methods.

MODULE - I

[12 Periods]

Conceptual Issues in Environmental and Natural Resources Management:

Environment and Its Integral Components: Ecology, Ecosystem & habitat
Environmental Resources: Land (Agriculture), Water, Forests/ Wildlife, Fisheries
Stakeholders of Environment, Carrying Capacity of Ecosystems (& Earth) Population
Growth and Environmental Impact

MODULE - II

[13 Periods]

Dimensions of Environmental Management: Economic, Socio-cultural, Technological, Ethical & Moral, Political & Legal Dimensions, Urban Environmental Management (UEM), Managing the local Environment, Concepts of Good Environmental Management, Environmental Management System and Processes, Waste Management, Development Management, Environmental Awareness

MODULE - III

[13 Periods]

A: Global Warming and Climate Change: Debate on Climate Change – the manifestations of Climate Change; Natural and anthropogenic (human interventions), Climate change: Adaptation and Mitigation Strategies at International and national contexts, International and National Efforts at Carbon, Emission Reductions

B: Sustainable Development in theory and practice:

Global Responses to Sustainable Development, Sustainable Development Goals (vs Millennium Development Goals), The Paris and Post-Paris Convention on Climate Change and Sustainable Development, Triple Bottom Line of Sustainability: Food, Water, Energy nexus, Potential and Barriers to Sustainable Business, Sustainable rural and urban livelihoods

MODULE - IV

[12 Periods]

Environmental Valuation: Why are the environment and natural resources prone to market failure, Values (Economic or otherwise) of Environment and Natural Resources: Use, Option, Existence, Signals of Natural Resource Depletion/ scarcity and valuation methods (Health cost, amenities and Hedonic Pricing, Travel Cost methods, Contingent Valuation Methods, Choice Experiments, Limitations of these signals), Payment for Ecosystem Services (PES)

MODULE - V

[13 Periods]

Socially and Environmentally Responsible Business Management : The relevance of Green Growth Green Business paradigms, Environmental Values of Business,

Corporate Social Responsibility and Environmental Impacts, Environmental Risk Management & Environmental Strategy, Environmental and Ecological Stewardship, Student Project presentations on Case Studies

Reference Books:

4. <https://www.youtube.com/watch?v=S773F1qtVyE>
5. <https://www.youtube.com/watch?v=6-bkU5Zwyuc>

Course Outcomes:

At the end of the course, students will be able to:

- CO1: To instruct the learners on environmental resources management.
- CO2: Outline various dimensions of environmental management.
- CO3: Reinforces the idea of climate change, global warming and need for sustainable practices.
- CO4: Explains the various environmental valuation methods.
- CO5: Emphasizes on best practices for business sustainability.

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA III Semester		
Code: C1E38	BUSINESS INTELLIGENCE	L	T	P
Credits: 3		3	-	-

Prerequisites: NIL

Course Objectives:

The objective of the course is to make the students proficient in the tools and techniques of Business Intelligence making use of Data mining and Data Warehousing processes.

MODULE I

[13 Periods]

Introduction: Business intelligence: Effective and timely decisions, Data, information and knowledge, - Components of BI Architecture, Business Intelligence Process, Role of mathematical models in BI, Ethics and business intelligence. BI Front End-Tools.

MODULE II

[13 Periods]

Data Mining and Business Intelligence: Data Mining, Tools and Techniques of Data Mining, Output Of Data Mining, Myths of Data Mining. Data preparation: Data validation, Datatransformation, Data reduction.

Text Mining and Business Intelligence: Process of Text Mining, Data Mining vs. Text Mining, Text Mining and Analytics. Web Mining: Web Structure Mining, Web Usage Mining, Web Mining Algorithm, Data vs. Text Vs. Web Mining.

MODULE III

[12 Periods]

Mathematical models for Business decision making: Structure of mathematical models, Development of a model, Classes of models.

Prediction methods and models for BI: Data preparation, Prediction methods, Mathematical method, Distance methods, Logic method, heuristic method-local optimization technique, stochastic hill climber method.

MODULE IV

[13 Periods]

Business Intelligence Applications: Marketing Models- Relational Marketing, Sales Force Management; Logistic and Production Models- Supply Chain Optimization, Logistic Planning, Revenue Management. Business Intelligence applications in Banking, Finance and Human Resources Management Using Business Cases

MODULE V

[13 Periods]

Data Visualization in BI: Data Visualization and its Benefits, Tools of Data Visualization, Dashboard Strategies and Data Visualization, Business Data Visualization using Cases, Role of BI in Managerial Decision making.

Course Outcomes:

At the end of the course, the student will be able to:

CO1: Develops knowledge on the concepts and models of business intelligence.

CO2: Imparts insights on procuring and analyzing business data through data mining techniques.

CO3: Simplifies the complex decision-making process and enhances the analytical abilities of the Students.

CO4: Builds knowledge on Data mining application to functional units of business.

CO5: Elaborates Data visualization tools that aid in business policy-making.

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA III Semester		
Code: C1E39	SUMMER INTERNSHIP & SEMINAR	L	T	P
Credits: 3		-	-	4

Prerequisites: NIL

Course Objectives:

Aim of summer internship is to give an opportunity to the MBA students to have practical exposure related to the job they prefer to do after MBA. Summer internship is to acquire practical knowledge by working in any organization. Through working for one to two months in any organization of their choice, students should learn how to do routine work related to the functional area of their interest.

Approach to decide Summer Internship: After careful analysis of the job market, students are expected to understand what type of job will be suitable to their knowledge and skill set. Students are advised not to ignore their first degree and the specialization they want to do at MBA level, before deciding on the summer internship. Students may work in any organization like banks, hospitals, hotels, insurance companies, charitable trusts, NGOs, Government departments etc. or work with any professional [like chartered accountants, doctor, lawyers, real estate, temples/ religious institutions etc.], small or big or any entrepreneur, manager of any business organization and understand how they are doing business. They can visit the shops, petrol bunk, dealers, distributors, retailers, companies or their branch offices in their nearby cities, towns and villages to understand their business model.

Presentation of their experiences through working and observation during the summer internship will enable them to enhance their creativity towards solutions for the issues and challenges of the business organizations or professionals with whom they are associated.

Students should take cover letter/s, addressed to the organization/professional, before the second mid of first semester and approach the organizations. They can use their own contacts or seek assistance from the faculty and head of the MBA department of the college to pursue the process of getting the summer internship. College is also expected to constantly approach companies and professionals and try to explore opportunities of providing summer internships to their MBA students. Students are also expected to put their serious efforts to get the summer internship because there is huge competition for getting summer internships and organizations are also expressing their inability to provide summer internships to the large number of students pursuing MBA.

Report: A brief report explaining their analysis and understanding the organization they work should be presented. There is no need to present information available in the websites. Students should give reference to the web link with a brief note on what the web site contains. While there is no limit on the number of pages, about 30 pages should be sufficient for submission followed by presentation.

Course Outcomes:**At the end of the course, the student will be able to:**

- CO1: Know the organization structure and its functions.
- CO2: Learn routine work which they would prefer to do after MBA. They can also continue with the same organization or professional for the MBA mini projects and final project also.
- CO3: Learn the organizational dynamics in terms of organizational behavior, culture, competition, future strategies and change initiatives of the organization.
- CO4: Gain the practical exposure related to the job of their interest.
- CO5: Acquire practical knowledge by working in any organization.

Code: C1E40	STRATEGIC MANAGEMENT	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives: The Objective of the course is to enable students to have a grasp of various business strategies in general and functional management areas. It will provide a strategic orientation in conduct of the business

MODULE – I

[13 Periods]

Introduction - Concepts in Strategic Management, Strategic Management as a process –Developing a strategic vision, Mission, Objectives, Policies – Factors that shape a company’s strategy – Environmental Scanning: Industry and competitive analysis- Methods, Concepts of Core Competence, SWOT Analysis- value chain analysis - Crafting a strategy for competitive advantage.

MODULE – II

[13 Periods]

Strategic Analysis and Choice: Tools and techniques for strategic analysis- Porter's Five Force Model, BCG Matrix, GE Model, TOWS Matrix, IE Matrix, The Grand Strategy Matrix. Market Life Cycle Model- and Organizational Learning, Impact Matrix and Experience Curve.

MODULE – III

[12 Periods]

Strategy Formulation: Formulation of strategy at corporate, business and functional levels. Strategy Alternatives: - Stability Strategy, Growth Strategy, Retrenchment Strategy, and Combination Strategy.

Strategy Implementation: Types of Strategies: Offensive strategy, Defensive strategy, vertical integration, horizontal strategy; Tailoring strategy to fit specific industry and company situations.

MODULE – IV

[13 Periods]

Turnaround and Diversification Strategies: Turnaround strategy- Management of strategic change, strategies for Mergers, Acquisitions, Takeovers and joint ventures, Strategy and Leadership, Resource Allocation as a vital part of strategy – Planning systems for implementation.

MODULE – V

[13 Periods]

Strategy Evaluation and control – Establishing strategic controls for measuring performance-appropriate measures- Role of the strategist- using qualitative and quantitative benchmarking to evaluate performance- strategic information systems– problems in measuring performance- Guidelines for proper control- Strategic surveillance- strategic audit- Strategy and Corporate Evaluation and feedback in the Indian and international context.

Course Outcomes:

At the end of the course, the student will be able to:

CO1: Know how to scan internal and external environment of an organization, understand different types of strategies

CO2: Understanding the formulation of strategies for gaining competitive advantage.

CO3: Analyze various corporate level strategies and the concept of organizational restructuring.

CO4: Gain knowledge about the corporate implications for global strategies and the risk involved in an international environment.

CO5: Evaluate strategies and take corrective steps

Code: C1E41	PROFESSIONAL ELECTIVE-V SERVICES MARKETING [MARKETING]	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objective:

To facilitate the students about the concepts of Services Market and service marketing

MODULE –I

[13 Periods]

Foundations of Service Marketing: What are Services? Why Services Marketing? Role of Services in Modern Economy, Service and Technology, characteristics of services compared to goods, Services Marketing Mix, staying focusing on customer, Gaps model of Service Quality-Customer Gap, Provider Gap, and Closing Gap.

MODULE –II

[13 Periods]

Focus on the Consumer: Consumer behavior in services, Consumer expectations in service, consumer perceptions of service, Understanding Consumer Requirements-listening to customers through research, building customer relationships, service recovery.

MODULE –III

[12 Periods]

A: Aligning Service Design and Standards: Service innovation and design-challenges; types of service innovations, stages in service innovation and development; Service blueprinting, high performance service innovations.

B: New Service Development: Processes, Customer defined service, standards, influencing factors, types, and development, Physical Evidence and the Services cape.

MODULE –IV

[13 Periods]

Delivering and Performing Service: Employee's roles in service delivery, customer's roles in service delivery, delivering service through intermediaries and electronic channels, managing demand and capacity.

MODULE –V

[13 Periods]

Managing Service Promises: Integrated services marketing communications-need for coordination, five categories of strategies to match service promises with delivery, Pricing of Services-three key ways that service prices are different for customers, approaches to pricing services, pricing strategies that link to the four value definitions.

4. nptel.ac.in/courses/110104070/43
5. <https://www.youtube.com/watch?v=C8DLhhPFqpU>

Course outcome:

At the end of the course, the student will be able to:

CO1: Identifying the Roles and characteristics of servicing marketing.

CO2: Understand consumer behavior in services

CO3: Evaluate how to align service design and standards, delivering service

CO4: Learn employee's role in service delivery.

CO5: Analyze managing services promises

Code: C1E42	PROFESSIONAL ELECTIVE-V STRATEGIC INVESTMENT AND FINANCING DECISIONS [FINANCE]	L	T	P
Credits: 4		4	-	-

Prerequisites: NIL

Course Objectives:

To develop an understanding of the role of financial strategy, in the investing, financing and resource allocation decisions within an organization. To develop an understanding of the various strategies those are in use to trade off risk and return

MODULE – I

[14 Periods]

Investment decisions under conditions of Risk and uncertainty: Concepts of risk and uncertainty. Risk Analysis in Investment Decisions. Risk adjusted rate of return, certainty equivalents, probability distribution of cash flows, decision trees, sensitivity analysis and Monte Carlo Approach to Simulation. Investment Decisions under capital constraints: Capital Rationing Vs. Portfolio. Portfolio Risk and diversified projects.

MODULE – II

[12 Periods]

Types of Investments and disinvestments: Project abandonment decisions, Evidence of IRR. Multiple IRR, Modified IRR, Pure, simple and mixed investments. Lorie Savage Paradox. Adjusted NPV and impact of inflation on capital budgeting decisions.

MODULE – III

[13 Periods]

A: Critical analysis of appraisal techniques: Discounted pay back, post pay back, surplus life and surplus pay back, Bail-out pay back, Return on Investment, Equivalent Annual Cost.

B: Terminal Value: Single period constraints, multi-period capital constraint and an unresolved problem, NPV mean variance analysis, Hertz Simulation and Hillier approaches. Significance of information and data bank in project selection.

MODULE – IV

[12 Periods]

Strategic Analysis of selected investment decisions: Lease Financing, Leasing vs. Operating Risk, borrowing vs. procuring. Hire purchase and Installment decisions. Lease Risk Management, Leasing as a Financing Decision, Advantages of Leasing, and Leasing Decision in practice.

MODULE – V

[13 Periods]

Financing Decisions: Mergers and Acquisitions Basic Issues, Strategy, Diversification and Mergers and Acquisitions, Theories of Mergers, Types of Mergers, Cost of Mergers, Government guidelines for Takeover, Problems on Mergers & Acquisitions and cases.

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA IV Semester		
Code: C1E50	OPEN ELECTIVE-II TAX LAWS AND PLANNING	L	T	P
Credits: 3		3	-	-

Prerequisites: Nil

Course Objectives:

The main objective of this course is to enable the students to understand the various tax laws and also to provide the basic knowledge of tax planning in different categories like individuals, corporate, firms, HUFs and AOPs etc.

Module I:

[10 Periods]

Tax laws in India: Introduction to Taxation, Structure, types of Taxes, Broad Schema of Income Tax Law, Finance Acts, Fundamental principles of Tax laws, taxation and constitution of India, Income Tax act 1961, Income tax rules, Goods and services Tax Law,

Module II:

[12 Periods]

Computation of Taxable income and liability: Rates of Taxes Applicable to Different Types of Taxpayers like individuals, corporate, firms, HUFs and AOPs etc. Computation of taxable income under different heads of income-House property, Profit and gain from business or profession, Capital gain and income other sources, Taxable and Exempt Incomes, Deduction from Gross Total income, carry forward and set off of losses in case of companies, Minimum Alternative Tax.

Module III:

[13 Periods]

A: Tax Planning: concept, objectives and factors to be considered for Tax Planning, Tax avoidance and tax evasion. Tax Planning of Specific Categories of Income, Tax Planning for Firms, HUFs and AOPs- partnership firm under Income Tax Law,

B: Tax planning with corporate dividend, Dividend policy- bonus shares. Tax planning with reference to specific managerial decisions- Make or Buy, Own or Lease, Purchase by installment or by Hire, Repair, Replace, Renewal or Renovation, shutdown or continue.

Module IV:

[10 Periods]

Tax Planning with Reference to Nature of Business: Relevance of Tax Provisions in Deciding the Nature of Business, Tax Provisions for Certain Types of Businesses, Businesses given Special Tax Treatment, Tax Provisions for Offshore Banking Units and Special Tax Zones, Tax implications of financing decisions.

Module V:**[10 Periods]**

International Taxation: Diversity in taxation among countries, Basic principles of international taxation, Factors affecting double taxation, Unilateral and bilateral reliefs for double taxation, Anti- Avoidance measures, tax treaty, transfer pricing, International tax arbitrage, E-Commerce taxation.

5. Comprehensive Guide to Tax Laws by Dr. Yogendra Bangur
6. Taxmann's Direct Taxes Law & Practice (Professional Edition)-As Amended by Finance Act 2020 (Asst.Years 2020-21 & 2021-22) by Dr. Vinod K Singhania, Dr. Kapil Singhania
7. Systematic Approach to Taxation Containing income tax & GST (42nd Edition) by Dr. Girish Ahuja & Dr Ravi Gupta
8. Taxation Laws by K. Rai

Course Outcomes:

At the end of the course, the student will be able to:

CO1: Learn the Tax laws in India.

CO2: Gain knowledge on Computation of Taxable income and liability.

CO3: Analyze the Tax Planning, corporate tax planning.

CO4: Know the Tax Planning with Reference to Nature of Business various online

CO5: Apply and to develop International Taxation.

Code: C1E51	OPEN ELECTIVE-II INTELLECTUAL PROPERTY RIGHTS	L	T	P
Credits: 3		3	-	-

Prerequisites: Nil

Course Objectives:

To acquaint the learners with the basic concepts of intellectual property rights to develop expertise in IPR related issues and sensitize the learners with the emerging issues in IPR and the rationale for the protection of IPR.

MODULE – I : Overview of Intellectual Property [13 Periods]

Introduction and the need for intellectual property right (IPR) - Kinds of Intellectual Property Rights ,Genetic Resources and Traditional Knowledge – Trade Secret - IPR in India : Genesis and development – International IPR - Major International Instruments concerning Intellectual Property Rights.

MODULE – II: Patents [12 Periods]

Patents - Elements of Patentability: Novelty , Non Obviousness (Inventive Steps), Industrial Application - Non - Patentable Subject Matter , Rights and Duties of Patentee, Assignment and license , Restoration of lapsed Patents, Surrender and Revocation of Patents, Infringement, Remedies & Penalties - Patent office and Appellate Board

MODULE – III: Copyrights & Trademarks [13 Periods]

A: Nature of Copyright - Subject matter of copyright: original literary, dramatic, musical, artistic works; cinematograph films, sound recordings, software - Registration Procedure, Term of protection, Ownership of copyright, Assignment and license of copyright - Infringement, Remedies & Penalties – Related Rights - Distinction between related rights and copyrights

B: Concept of Trademarks - Different kinds of marks (brand names, logos, signatures, symbols, well known marks, certification marks and service marks) - Non Registrable Trademarks - Registration of Trademarks - Rights of holder and assignment and licensing of marks - Infringement, Remedies & Penalties - Trademarks registry and appellate board

MODULE – IV: Other forms of IP [13 Periods]

A Design: meaning and concept of novel and original - Procedure for registration, effect of registration and term of protection Geographical Indication (GI) Geographical indication: meaning, and difference between GI and trademarks - Procedure for registration, effect of registration and term of protection

B Plant Variety Protection: meaning and benefit sharing and farmers’ rights – Procedure for registration, effect of registration and term of protection,

MODULE – V [12 Periods]

A. IPR Registrations: meaning – Procedure for registration, effect of registration and term of protection

B. India's New National IP Policies – Govt. of India step towards promoting IPR – Govt. Schemes in IPR – Career Opportunities in IP - IPR in current scenario with case studies

3. https://onlinecourses.nptel.ac.in/noc22_hs59/unit?unit=62&lesson=63

Course outcome:

At the end of the course, the student will be able to:

CO1: Imbibe and builds knowledge of intellectual property and its protection through various laws

CO2: Delivers the purpose and functions of IPR and patenting

CO3: Develops a platform for protection and compliance of copyrights and trademarks

CO4: Functional awareness on IPR related compliances for academia and industry.

CO5: Legally recommended registration process and New policies of IPR.

Code: C1E52	OPEN ELECTIVE-II CORPORATE GOVERNANCE	L	T	P
Credits: 3		3	-	-

Prerequisites: NIL

Course Objective:

To understand the growing importance of Corporate Governance in Indian and Global Context.

MODULE – I

[13 Periods]

Corporate Governance: Introduction to Corporate Governance - Major Corporate Governance Failures- Need for Corporate Governance - Corporate Governance in India, Theories of Corporate Governance - Agency Theory, Stewardship Theory, and Stakeholder Theory – Convergence- Problems of Governance in Companies.

MODULE – II

[13 Periods]

Corporate Governance codes and committees – Global reporting initiative – OECD Principles - Cadbury Committee Report - Kumara Mangalam Birla Committee Report – Naresh Chandra Committee Report - Narayana Murthy Committee Report - SEBI Clause 49 Guidelines- Corporate Governance Committees - Role of capital Markets, Regulator, Government in Corporate Governance.

MODULE – III

[12 Periods]

A: Board and Leadership- The board of Directors, Structure of the Board, role of the board, Role, duties and responsibilities of Directors, Types of Directors, Board as a learning organization,

B: Leveraging Good Governance for Competitive Advantage, Conflicts of Interest, Remedial Actions, Governance Ratings- Merits and Demerits.

MODULE – IV

[12 Periods]

Models of Corporate Governance- Effect of Context and culture on corporate governance-Anglo Saxon Model- The UK Commonwealth principles based Model- The German Model - The Japanese Business Network Model- Indian Model of corporate governance- forces for convergence and differentiation in corporate governance.

MODULE – V

[13 Periods]

Whistle-blowing and CSR in Corporate Governance: The Concept of whistle-blowing; types of whistle-blowers; whistle-blower policy; the whistle-blower legislation across countries; developments in India. Corporate Social Responsibility (CSR): Corporate philanthropy; CSR-an overlapping concept; corporate sustainability reporting; CSR through triple bottom line; relation between CSR and corporate governance; environmental aspect of CSR; CSR initiatives in India.

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA IV Semester		
Code: C1E53	OPEN ELECTIVE-II DATA EXPLORATION AND APPLICATION USING PYTHON	L	T	P
Credits: 3		3	-	-

Prerequisites: NIL

Course Objectives:

The course imparts the undertaking of the concepts and various application issues of e-business like Internet infrastructure, security over internet, payment systems and various online strategies for e-business.

MODULE I

[13 Periods]

Introduction: Introduction to Data Science, Exploratory Data Analysis and Data Science Process. Motivation for using Python for Data Analysis, Introduction of Python shell iPython and Jupyter Notebook.

Essential Python Libraries: NumPy, pandas, matplotlib, SciPy, scikit-learn, statsmodels.

MODULE II

[13 Periods]

Getting Started with Pandas: Arrays and vectorized computation, Introduction to pandas Data Structures, Essential Functionality, Summarizing and Computing Descriptive Statistics. Data Loading, Storage and File Formats. Reading and Writing Data in Text Format, Web Scraping, Binary Data Formats, Interacting with Web APIs, Interacting with Databases Data Cleaning and Preparation. Handling Missing Data, Data Transformation, String Manipulation.

MODULE III

[12 Periods]

Data Wrangling: Hierarchical Indexing, Combining and Merging Data Sets Reshaping and Pivoting. Data Visualization matplotlib: Basics of matplotlib, plotting with pandas and seaborn, other python visualization tools

MODULE IV

[13 Periods]

Data Aggregation and Group operations: Group by Mechanics, Data aggregation, General split-apply-combine, Pivot tables and cross tabulation

Time Series Data Analysis: Date and Time Data Types and Tools, Time series Basics, date Ranges, Frequencies and Shifting, Time Zone Handling, Periods and Periods Arithmetic, Resampling and Frequency conversion, Moving Window Functions

MODULE V

[13 Periods]

Advanced Pandas: Categorical Data, Advanced GroupBy Use, Techniques for Method Chaining.

Exploratory Data Analytics: Descriptive Statistics – Mean, Standard Deviation, Skewness and Kurtosis – Box Plots – Pivot Table – Heat Map – Correlation Statistics – ANOVA.

Course Outcomes:

At the end of the course, the student will be able to:

- CO1: Use data analysis tools in the pandas library
- CO2: Load, clean, transforms, merge and reshape data.
- CO3: Create informative visualization and summarize data sets.
- CO4: Analyze and manipulate time series data.
- CO5: Solve real world data analysis problems.

Code: C1E54	OPEN ELECTIVE-II E - BUSINESS	L	T	P
Credits: 3		3	-	-

Prerequisites: NIL

Course Objectives:

The course imparts the undertaking of the concepts and various application issues of e-business like Internet infrastructure, security over internet, payment systems and various online strategies for e-business.

MODULE I

[13 Periods]

Introduction to e-business : Electronic business, Electronic commerce, difference between e-business & e-commerce, electronic commerce models, types of electronic commerce, value chains in electronic commerce-commerce in India, internet, web based tools for electronic commerce. Electronic data, Interchange, components of electronic data interchange, and electronic data interchange process.

MODULE II

[13 Periods]

Security threats to e- business: Security overview, Electronic commerce threats, Encryption, Cryptography, public key and private key Cryptography digital signatures, digital certificates, security protocols over public networks : HTTP, SSL, Firewall as security control, public key infrastructure (PKI) For Security.

MODULE III

[12 Periods]

Electronic payment system: Concept of money, electronic payment systems, types of electronic payment systems, smart cards and electronic payment systems, infrastructure issues in EPS, Electronic fund transfer.

MODULE IV

[13 Periods]

E-business applications and strategies: Business models & revenue models over internet, emerging trends in e- business- governance, digital commerce, mobile commerce, strategies for business over web, internet based business models.

MODULE V

[13 Periods]

E –business infrastructure and e- marketing: Hard work system software infrastructure, ISP's, managing e-business applications infrastructure, what is e-marketing, e-marketing planning, tactics, strategies.

Text books:

1. Dave chaffey :e-business & e-commerce management- Pearson.

Course Outcomes:

At the end of the course, the student will be able to:

CO1: Outlines the E- business infrastructure and trends.

CO2: Analyze different types of portal technologies and deployment methodologies commonly used in the industry.

CO3: To assess the effectiveness of network computing and cloud computing policies in a multi- location organization.

CO4: Constructs real business cases regarding their e-business strategies and transformation processes and choices.

CO5: Integrate theoretical frameworks with business strategies.

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA IV Semester		
Code: C1E55	PRE-SUBMISSION PROJECT SEMINAR	L	T	P
Credits: 02		-	-	4

Prerequisites: NIL

Course Objectives:

The final project work of MBA consists of three stages as clearly described in the guideline for project work. The progress on the first stage of formulating research methodology and the second stage of data analysis is indeed crucial before one can take up the final stage of writing the project report. The seminar on pre submission of project report is aimed at providing an opportunity to present the work on the first two stages of project work before an enlightened audience and have a critical assessment of the work carried out so far. The process would give the student sufficient feedback to be incorporated at the time of writing the project report.

Course Outcome:

At the end of the course, the student will be able to:

- CO1: Put across his work on the main project.
- CO2: Under go for critical assessment and provide an opportunity to make any online corrections.
- CO3: Get incorporated with suggestions from the internal guide for better and improved work.
- CO4: Know the documentation process of the project work.
- CO5: Know the overall conclusion for the project.

CO5		2						3			

2022-2023 Onwards (MR-22)	MALLA REDDY ENGINEERING COLLEGE (Autonomous)	MBA IV Semester		
Code: C1E56	MAIN PROJECT VIVA-VOCE	L	T	P
Credits: 04		-	-	8

THE FINAL PROJECT IS DIVIDED IN TO STAGE-I, STAGE-II AND MAIN PROJECT REPORT AND VIVA.

Prerequisites: NIL

Course Objectives:

Aim of multi stage evaluation is to enable students to do original work on their own so that they can get the benefit in terms of gaining practical knowledge and possible employment.

Stage I: RESEARCH METHODOLOGY [Chapter I of the Main Report] -

Students should be advised to do final MBA projects on topics close to the job they prefer to do after MBA. The faculty should guide them and focus on the methodology of doing a project so that the students can understand how to study the problems they come across while working. The following is the suggested checklist for doing STAGE I of the project.

Topic:

.....

Chapter I

- Brief Introduction:
- Review of literature:
- Research Gaps:
- Research Questions:
- Objectives of the study:
- Hypotheses:
- Scope of the study:
- Period of the study:
- Sample:
- Data Collection:
- Primary Data:
- Secondary Data:

Stage II: STATISTICAL ANALYSIS - [Chapter II of the main report]

Approach: Students should collect data for the main project from CMIE Prowess DATABASE or any other source or from the field. Students are expected to use relevant statistical tools using Excel, SPSS, MINI TAB, Python or R and make a

Seminar Presentation. This will be the **CHAPTER II: Data Analysis** of the main report

Stage III: MAIN PROJECT REPORT AND VIVA [Chapter III of the Main Report]. In addition to the above two stages the students should write the third chapter on Data Interpretation, Conclusion & Suggestions and submit the final report by including the following.

Course Outcomes:

- CO1: Students should be able to develop a research design for their topic of research.
- CO2: Students will be able to understand the data requirements and collect data relevant for a research study.
- CO3: Students will be able to analyze the organizational data and interpret results.
- CO4: Students will be able to analyze the findings and suggestions of the topic.
- CO5: Students will be able to give the overall conclusion of the topic.

Reference Books:

- Appendix I: Questionnaire [if any].
- Appendix II: Definition of concepts, models, formulas used in the report.

NOTE: faculty should advise students to give only references to the websites and journals and not to directly download in the project report. Maximum 24% can be downloaded and rest should be original.

After the submission of the report by consolidating the work done in stage 1, 2 and 3, an external viva will be held by the Institute to give the marks as per the University guidelines 2018-19.
