

### About The Institution:

This institution was started in the year 2002 by CMR Educational Society, under the chairmanship of Sri Ch. Malla Reddy in Telangana State, after approval of AICTE and Affiliated to JNTUH, Hyderabad. The College is situated in the serene, lush green atmosphere on Kompally - Bahadurpally road opposite to A.P. Forest Academy. The college offers B.Tech programmes in CIVIL, EEE, Mechanical, ECE, CSE, IT and Mining Engineering. It also offers PG Courses MBA, and 14 M.Tech programmes. As a measure of the Excellency of the college management, the college is accredited by NBA for Mechanical, ECE and EEE branches in July 2008. The college is accredited by NAAC with "A" Grade in 2010 and this institute got JNTUH autonomous in 2011, also conferment of autonomous status by UGC in 2014 for a period of 6 years. The institute has high quality infrastructure and well developed laboratories in all the departments. The institution has a great potential in advancement of Technical Education programmes at all levels and supported by **TEQIP - II S.C-1.1**

### About The Department:

The Department of civil Engineering was started in the year 2004 with a vision of imparting high quality education to suit the global standards in civil engineering. The department offers M.Tech courses in Structural Engineering,

The department has got highly qualified and committed faculty members supported by dedicated technical staff. The department has established sophisticated laboratories not only to suit curriculum requirements but also to serve research needs such as CAD/STAADPRO, Advanced Geotechnical Engineering, and Advanced Transportation Engineering Laboratories.

### Central Theme of the Workshop:

Water is essential to sustain human life. The scarcity of water is being noticed in much of the world. More than two billion people in 40 countries live in river basins under "water stress", where per capita supply is less than 1,700 m<sup>3</sup> per year. According to USAID "IWRM is a participatory planning and implementation process, based on sound science, which brings together stakeholders to determine how to meet society's long-term needs for water and coastal resources while maintaining essential ecological services and economic benefits." IWRM emphasizes the key concepts of Integration, Decentralization, Participation, and Economic and Financial Sustainability.

### Discussion Topics:

Introduction to the concept of IWRM

IWRM principles & approaches

IWRM Implementation – Case studies

IWRM Status and Current Initiatives in India
