➤ **Dr. C. Krishna Mohan** Proposed the following points

1. In I year II sem instead of having chemistry-II we can have any other subject related to their core branch.
2. Instead of having two Mathematical subjects in the same semester it can be moved to another semester.
3. Names of Data structures and algorithms-I, Data structures and algorithms-II to be replaced with Data structures, Design and Analysis of Algorithms respectively.
4. Introducing Computer Organization in II year II sem is too late it can be bring back to II year I sem.
5. Instead of having web technologies lab, in theory itself include some practical oriented mini projects which can be given weightage in subject evaluation.
6. The labs of CN&OS, CD & Web technologies should not be combined.
7. In M.Tech Curriculum include subjects like Software defined networks as electives.
8. The subjects like Compiler Design, Cryptography, Data structures, etc. are needed to be upgraded and names are to be changed in M.Tech Syllabus.
9. Data Structures and Algorithms syllabus need to be simplified.
