- Approval of any other items with the permission of the Chairman.

At the outset, Dr. Yogesh Madaria, Head, Mech. Engg. Dept. and Chairman of the B.Tech (Mech. Engg.) Board of Studies, welcomed the members to the Board of Studies and appraised the purpose of the meeting. He also briefed about the previous BoS meeting, resolutions and placed on record, the existing syllabi of MR 18 regulations and also proposed modifications for MR18 regulations syllabi. Later, Board of Studies members have in detailed discussed, reviewed each item of the proposed agenda and finally the following items have been resolved unanimously by all the members of BoS.

Resolutions approved after careful discussion and observations:

1. The revised scheme of instructions implemented as MR18 regulation B.Tech. (Mech. Engg.) course is approved by BoS members
2. The revised syllabus is implemented as MR18 B.Tech. (Mech. Engg.) course syllabus.
3. The software approved by the BoS members were installed in the respective labs.
4. The question paper setters and evaluators /examiners suggested for the B.Tech (Mech. Engg.) course is implemented.
5. B.Tech.(Mech. Engg.) Schema with overall 160 credits and practical course with single credit suggested by the committee is executed for MR18 Regulations
6. The *Basic Manufacturing Practices Lab* has been renamed into *Engineering Workshop* and the subjects *Machine Tools* and *Engineering Metrology* are combined into one subject as *Machine Tools and Metrology*.
7. The subject *Electrical Drives* and *Micro-processors* has been removed from the curriculum and the *Finite Element Method* subject is shifted from Professional core to Professional elective.
8. The *Production Drawing Practice & Instrumentation lab* is split into two different labs namely, *Production Drawing Practice Lab* and *Instrumentation labs*.
9. The credits for *Mathematics* subjects were increased from 3 to 4.
10. The BoS members suggested to shift the *Engineering Graphics* from 1st to 2nd semester, owing to some practical constraints, it is very difficult to shift the first semester to second one. As the subject is offered to Non-Circuit branches in the first semester and to Circuit branches in the second semester. In this way, the number of classes in both the semesters remain almost equal. Shifting the subject for one branch will disturb the distribution of number of classes.

Some suggestions for minor revision of syllabus were made by the members of the Board studies. On discussion, it was decided to implement those revision from next regulation from July 2020.
