### DEPARTMENT OF MECHANICAL ENGINEERING

ACADEMIC YEAR: 2015-16

### SUMMARY REPORT

Value added course name: “Personality Development”

Value added course Instructor: **Dr. T. Ravichandran**

This was followed by a discussion on The Self, one’s desires, dreams, passions and motivations. Students were told how important their dreams and desires are for developing the personality. It was stressed that they need to have a passion in life. Students were also given tips on how to increase their self-esteem. They were also encouraged to be optimistic and to have a positive approach about everything in life. Most importantly, it was emphasised that they should love themselves and never lose confidence.

Next students were shown clips from the Will Smith movie – Pursuit of Happiness. In the clip, Will Smith tells his child, “Don’t ever let someone tell you that you can’t do something. Not even me. You got a dream, you gotta protect it. When people can’t do something themselves, they’re gonna tell you that you can’t do it. You want something go get it. Period.” The clip carried the message that we should never give up and should always have a strong will. We must persist to pursue dreams regardless of what may happen and not succumb to the negativity around us. The students were shown other motivational clips as well.

The next activity was an interesting game called ‘the animal game’. In this, the students were asked to write down the names of their three favourite animals in order of their preference. They were also supposed to write the reasons why those particular animals were dear to them. After the students had completed the task, they were told that the characteristics of the third animal that they had named describes the reality of what they are. The characteristics of the second animal is what we try to present and the traits of the first animal
