About the Institution

Malla Reddy Engineering College (Autonomous) is one of the reputed engineering colleges in Hyderabad, Telangana. **MREC (A)** is part of Malla Reddy Group of Institutions (MRGI), founded by Sri. Ch. Malla Reddy. The college is situated in a serene lush green environment in Maisammaguda, Gundlapochampally, Medchal(M), Mechal-Malkajgiri District, Telangana-500100.

The college was established in 2002 and is an autonomous institution approved by UGC and affiliated to JNTUH. The college is re-accredited by NAAC with 'A' Grade (II Cycle) and was conferred autonomous status by JNTUH in 2011 and by UGC in 2014 for a period of 6 years. Our eligible UG and PG programs received NBA accreditation and some of them received reaccreditation too. Along with programs in various streams of Engineering & Technology and Management. It boasts of world-class infrastructure and well-equipped laboratories in all departments and is skillfully and smartly guided by Dr.Sudhakar Reddy, Principal, MREC (A) who have a rich teaching and industrial experience.

About the Department:

The Department of Civil Engineering at MREC has been producing high quality technical manpower needed by industry, R&D organizations, and academic institutions since 2004 with an Intake of 60. The intake has been increased to 120 in the year 2009 and 180 in the year 2014. The Department started offering M.Tech with Structural Engineering specialization in 2010 with an intake of 18,

two more courses at P.G level- geotechnical engineering and transportation engineering are being offered from the academic year 2013-2014 with an intake of 24 each. The department was accredited by NBA in the year 2014.

Overview of the Programme:

The primary responsibility of student is not only to study towards a higher vision but also create a strong sense of bonding between the institution and the students to nurture a stress-free holistic environment. To enhance the quality of life for the students enabling them to introspect and learn techniques that imbibe ethics & morals in their teaching and help pre-prepare students for active and successful participation in a modern society, producing individuals of high character, probity and honor.

Proposed VAC is helping to imbibe the skills and competencies required to achieve goals directed by values, to maintain and enhance faculty effectiveness by inculcating dynamism and leadership qualities and to develop commitment and ethical approach towards work, and instill a sense of responsibility towards the institution. Also to enhance communication and soft skills by introducing innovative teaching methodologies and developing an inter-personal connection with students. To achieve this goal, Art of Living foundation is conducting this workshop through ATAL.

Objectives of the Programme:

- To imbibe the skills and competencies required to achieve goals directed by values.
- To maintain and enhance student effectiveness by inculcating dynamism and leadership qualities.
- To develop commitment and ethical approach towards work, and instill a sense of responsibility towards the companies.
- To enhance communication and soft skills of the students by introducing innovative methodologies and developing an interpersonal connection.

Topics to be covered:

- ❖ Aptitude test
- ❖ GD
- ❖ Interviews
- ❖ Quantitative aptitude
- ❖ Arithmetic
- ❖ Geometry

Test and Certificate:

A test will be conducted at the end of the program and the certificates shall be issued to those participants

Outcome of the Program:

After completing the Course, the student will itself feel the difference in terms of:

- Enhanced Potential, Fair-mindedness
- Empathetic behavior & Optimistic attitude
- Dynamism, Commitment and Confidence
- Ethical Leadership & Risk taking ability

SYLLABUS

“INTRODUCTION TO CAMPUS RECRUITMENT TRAINING”

Various stages of the selection process remain, broadly, the same for these companies, with some slight variations. These variations could be in the form of an additional or less number of stages for some companies.

The following are the stages that students normally go through as a part of Campus Recruitment:

1. Aptitude Tests
2. GD
3. Interviews

I. APTITUDE TEST

Aptitude Test is one of the integral components in the entire scheme of the selection process. The areas normally covered in the aptitude tests of most companies are Quantitative ability, Reasoning and Verbal Ability. These tests are well structured. The kind of questions that are asked or the topics that are tested depends entirely on the company conducting the test. Each company has its own pattern. Even though the test patterns might differ across the companies, there are certain topics from which the questions are asked very frequently.

QUANTITATIVE APTITUDE

The questions from this test area of Quantitative Aptitude are of easy to moderate level of difficulty. The questions, usually, come from the following topics.

A) ALGEBRA

- Simple Equations
- Ratio, Proportion and Variation.
- Quadratic Equations
- Progressions
- Indices & Surds
- Numbers

B) ARITHMETIC

- Percentages, Profit and Loss, Partnerships
- Simple Interest and Compound Interest
- Averages, Mixtures and Alligations
- Time & Work
- Time & Distance

C) GEOMETRY & MENSURATION

- Geometry
- Mensuration

D) HIGHER MATHS

- Permutation & Combinations
- Probability

DATA INTERPRETATION

The questions related to data interpretation are of easy to moderate level of difficulty. The questions in DI usually involve observation, calculations like comparison of fractions, computing the averages, percentage based calculations etc. Basic understanding of different types of charts like Tables, Pie Charts, Bar Charts, Line Graphs is required.

REASONING

Questions asked from the test area are easy to moderate. A basic level of exposure to the following set of topics will help a candidate in answering the questions with ease.

- Series, Analogies, Odd Man Out, Coding and Decoding
- Venn Diagrams
- Clocks, Calendars
- Blood relations, Direction Sense
- Symbols and Notations, Linear and Circular Arrangement
- Distribution, Comparisons, Quant based Puzzles
- Selections, Deductions, Input and Output
- Cubes and Dice

VERBAL ABILITY & READING COMPREHENSION

The questions from this area require basic knowledge about English usage and functional grammar. Questions are of easy to moderate difficulty level and the questions come from different sub-topics like

- Grammar
- Vocabulary
- Reading Comprehension

A candidate needs to be adequately prepared to handle the aptitude test of any of the companies. This stage is very important and if one does not clear this stage, then one cannot move to the next stage in the selection process, which is usually the Group Discussion. The next stage in the selection process is the Group Discussion.

II. GROUP DISCUSSION

A group discussion or GD is conducted to test the interpersonal, including communication, skills of candidates. It also tests a candidate's knowledge and his ability to link the facts.

In a GD, a group of students is asked to discuss a topic given to them. The topics that are given in GD are of two types – Knowledge based and Abstract. GD is conducted to test certain key attributes in candidates. They would be tested for their clarity of thought and clarity of language. The companies, also, test their ability to understand and structure a response to the topic. Their leadership skills are also put to test during Group Discussion. In order to do well in GD, candidates need to read newspapers, magazines regularly.

III. INTERVIEW

Certain companies conduct HR & Technical Interviews separately, while some other companies combine both types in a single interview. The interviews are conducted to test a candidate's knowledge of self, his career plans, hobbies, interests, achievements, knowledge about his specialization etc. Questions can be drawn from any area. It is expected that a candidate has a clear career goal or objective when he/she faces an interview panel. If one is from the department of Electronics Engineering and one is applying to TCS, then it is expected that one has a good command over the subjects one has learnt in one's engineering. At the same time, candidates need to show interest in the field of IT and come up with a convincing answer as to why they are shifting their field from "Electronics Engineering" to "IT". Overall, one's confidence and one's knowledge are the key attributes which would be checked here.

Salary at IT companies

Pay packages offered by companies are usually in the range of Rs 3.5 lakh to Rs 11 lakh a year for fresh engineering graduates. For example, TCS has revamped its hiring process from year 2018

onwards. The new process is conducted nation wide. It has been named as "TCS NINJA HIRING OR TCS NATIONAL QUALIFIER TEST" On clearing this written test, and the subsequent round of Interview, a candidate will be offered a role of "TCS NINJA" (with a salary of approx 3.5 lakhs). Those who clear this test (with higher percentiles) will also get an opportunity to appear for the role of TCS Digital (with salary of Rs 7 lakhs). Any one who clears this test of TCS Digital, will further get an opportunity for a role of TCS Innovator, the salary for which will be Rs 9-11 lakhs.

SUMMARY REPORT

Value Added course name: Campus Recruitment Training

Value Added course Instructor: Dr. Ramashesu

Various stages of the selection process remain, broadly, the same for these companies, with some slight variations. These variations could be in the form of an additional or less number of stages for some companies.

The following are the stages that students normally go through as a part of Campus Recruitment:

1. Aptitude Tests
2. GD
3. Interviews
