About the Department

The Department of CSE was started in the year 2005 with a vision of imparting high-quality education to suite the global standards in Computer science and Engineering. The department has got highly qualified & committed faculty members supported by dedicated technical staff.

The department has its own library and sophisticated laboratories not only to suite curriculum requirements but also to serve research needs such as Computer Networks, Data Mining, Software Engineering, Image processing & Cloud Computing. Workshops, software simulation etc.

The department formed CSI and ISTE student branch for the benefit of students and faculty by conducting technical Conferences, workshops, FDPs and Guest lectures.

Overview of the Programme

The **IOT** course recognizes basic skills in installing, supporting, and troubleshooting wired and/or wireless networks. One can choose from several tracks, including Cloud, Collaboration, Cyber Ops, Data Center, Industrial, Routing and Switching, Security, Service Provider and Wireless.

The **IOT** certification validates your skills and knowledge in network fundamentals, network access, IP connectivity, IP services, security fundamentals, and automation and programmability.

Objectives of the Programme

During the Cisco Networking Academy® course, administered by the undersigned instructor, the student was able to proficiently:

- Understand and describe basic switching concepts and the operation of Cisco switches
- Understand and describe enhanced switching technologies
- Understand and describe dynamic routing protocols, distance vector routing protocols, and link-state routing protocols
- Configure and troubleshoot basic operations in a small switched and routed network
- Configure and troubleshoot VLANs and inter-VLAN routing

Topics to be covered

- Exploring the Network,
- Configuring a Network Operating System,
- Network Protocols and Communications,
- Network Access

Certificate

After successful completion of the course the certificates shall be issued to the participants.

Outcome of the program,

On completion of this course, participants will be able to equip with all the skills required to match their expectations.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

VAC-IOT- Summary

15.03.2019

Course duration: 11th March 2019 to 15th March 2019

Overview of the Programme

The course was chosen as a value added course as it is one of the emerging technologies that is being used by the industry.

The IOT course recognizes basic skills in installing, supporting, and troubleshooting wired and/or wireless networks. One can choose from several tracks, including Cloud, Collaboration, Cyber Ops, Data Center, Industrial, Routing and Switching, Security, Service Provider and Wireless.

Objective : The following topics are covered in detail to the students

Introduction to Embedded Systems and Internet of Things (IOT) Architecture of Embedded Systems

Embedded Systems Development process, Architecture of Internet of Things

Applications of Embedded Systems and IoT

Design Methodology for IOT Product

Overview of Open Source Hardware and its relevance to IOT

Introduction and Programming Arduino Development Board

Working with Sensor Integration

Interfacing Input/Output devices (Pot, LOR, LCD, etc)

Introduction to Network Connectivity, Concepts of IP based communication, Introduction to Wi-Fi communication

Fundamentals of Python Programming & Raspberry Pi

Certificate

After successful completion of the course certificates are issued to the participants.

Outcome of the program

On completion of this course, participants are able to equip with all the skills required to match their expectations.
