Respected Sir,

The Mining Engineering Department of Malla Reddy Engineering College (Autonomous) is going to organize a Refresher course on "Underground Metal Mining" from 12 - 16 July, 2021. There will be two sessions each day and the duration of each session will be 2 hours. Your lecture is scheduled in the afternoon session of 14th July, 2021 (2:00 - 4:00 pm). As requested by you, the schedule of the refreshment course is attached with this mail. The objective of this course is to teach the basics and fundamentals of Underground Metal Mining to the final year students as they will be appearing for placements in the coming weeks.

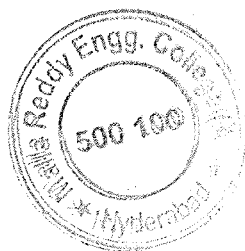

Please select the topics as per your convenience. Please be flexible to introduce a new topic other than the topic in "Underground Metal Mining" enlisted in your slot. We will be delighted to have you here as a resource person in this refreshment course. Not only the students, but also all the faculty members will be enriched with your experiences and knowledge gained by you in Underground Metal Mining.

Please let us know about the topic on which you would like to deliver the lecture so that we can finalize the work schedule and make arrangements accordingly.

With Regards

Respected Sir,

As per your suggestion, the topics for the lectures have been incorporated in the course. Please find the attachment of the final schedule for the same.

Please share your residential address so that we can send cab/taxi on the respective dates of your sessions.

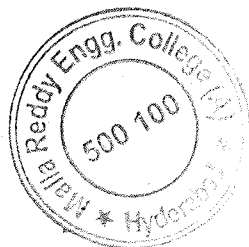

Sir, please share your biodata (word file or ppt) so that we can give a proper introduction of yours before your session.

Thanking you

Dear, I can handle all the vacant slots except Session 1 on Monday, 12 July, 2021. You may request Someone like Mr. Sushil Kumar for the topic because he is actively involved from different angles. I will be happy to participate in all the sessions from Monday to Saturday as a silent student. I may be allowed if feasible.

Monday Session 2: Delineations of orebody in various geological conditions

Add: Choice of development and stoping methods.

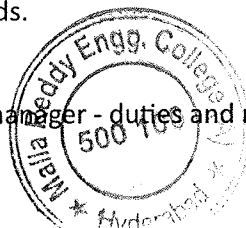

Tuesday Session 1: The daily life of metal mine manager - duties and responsibilities of mining officials

Add: Innovation and planning.

Tuesday Session 2: Unit operations - drilling and blasting, mucking, transportation and ventilation

Add: Conventional and advanced methods

Report on "Student Certification Program on Gas testing in mines (4th Batch) & Refresher Course on Metal Mining "

Conducted on 12th July, 2021, by
Malla Reddy Engineering College (Autonomous)

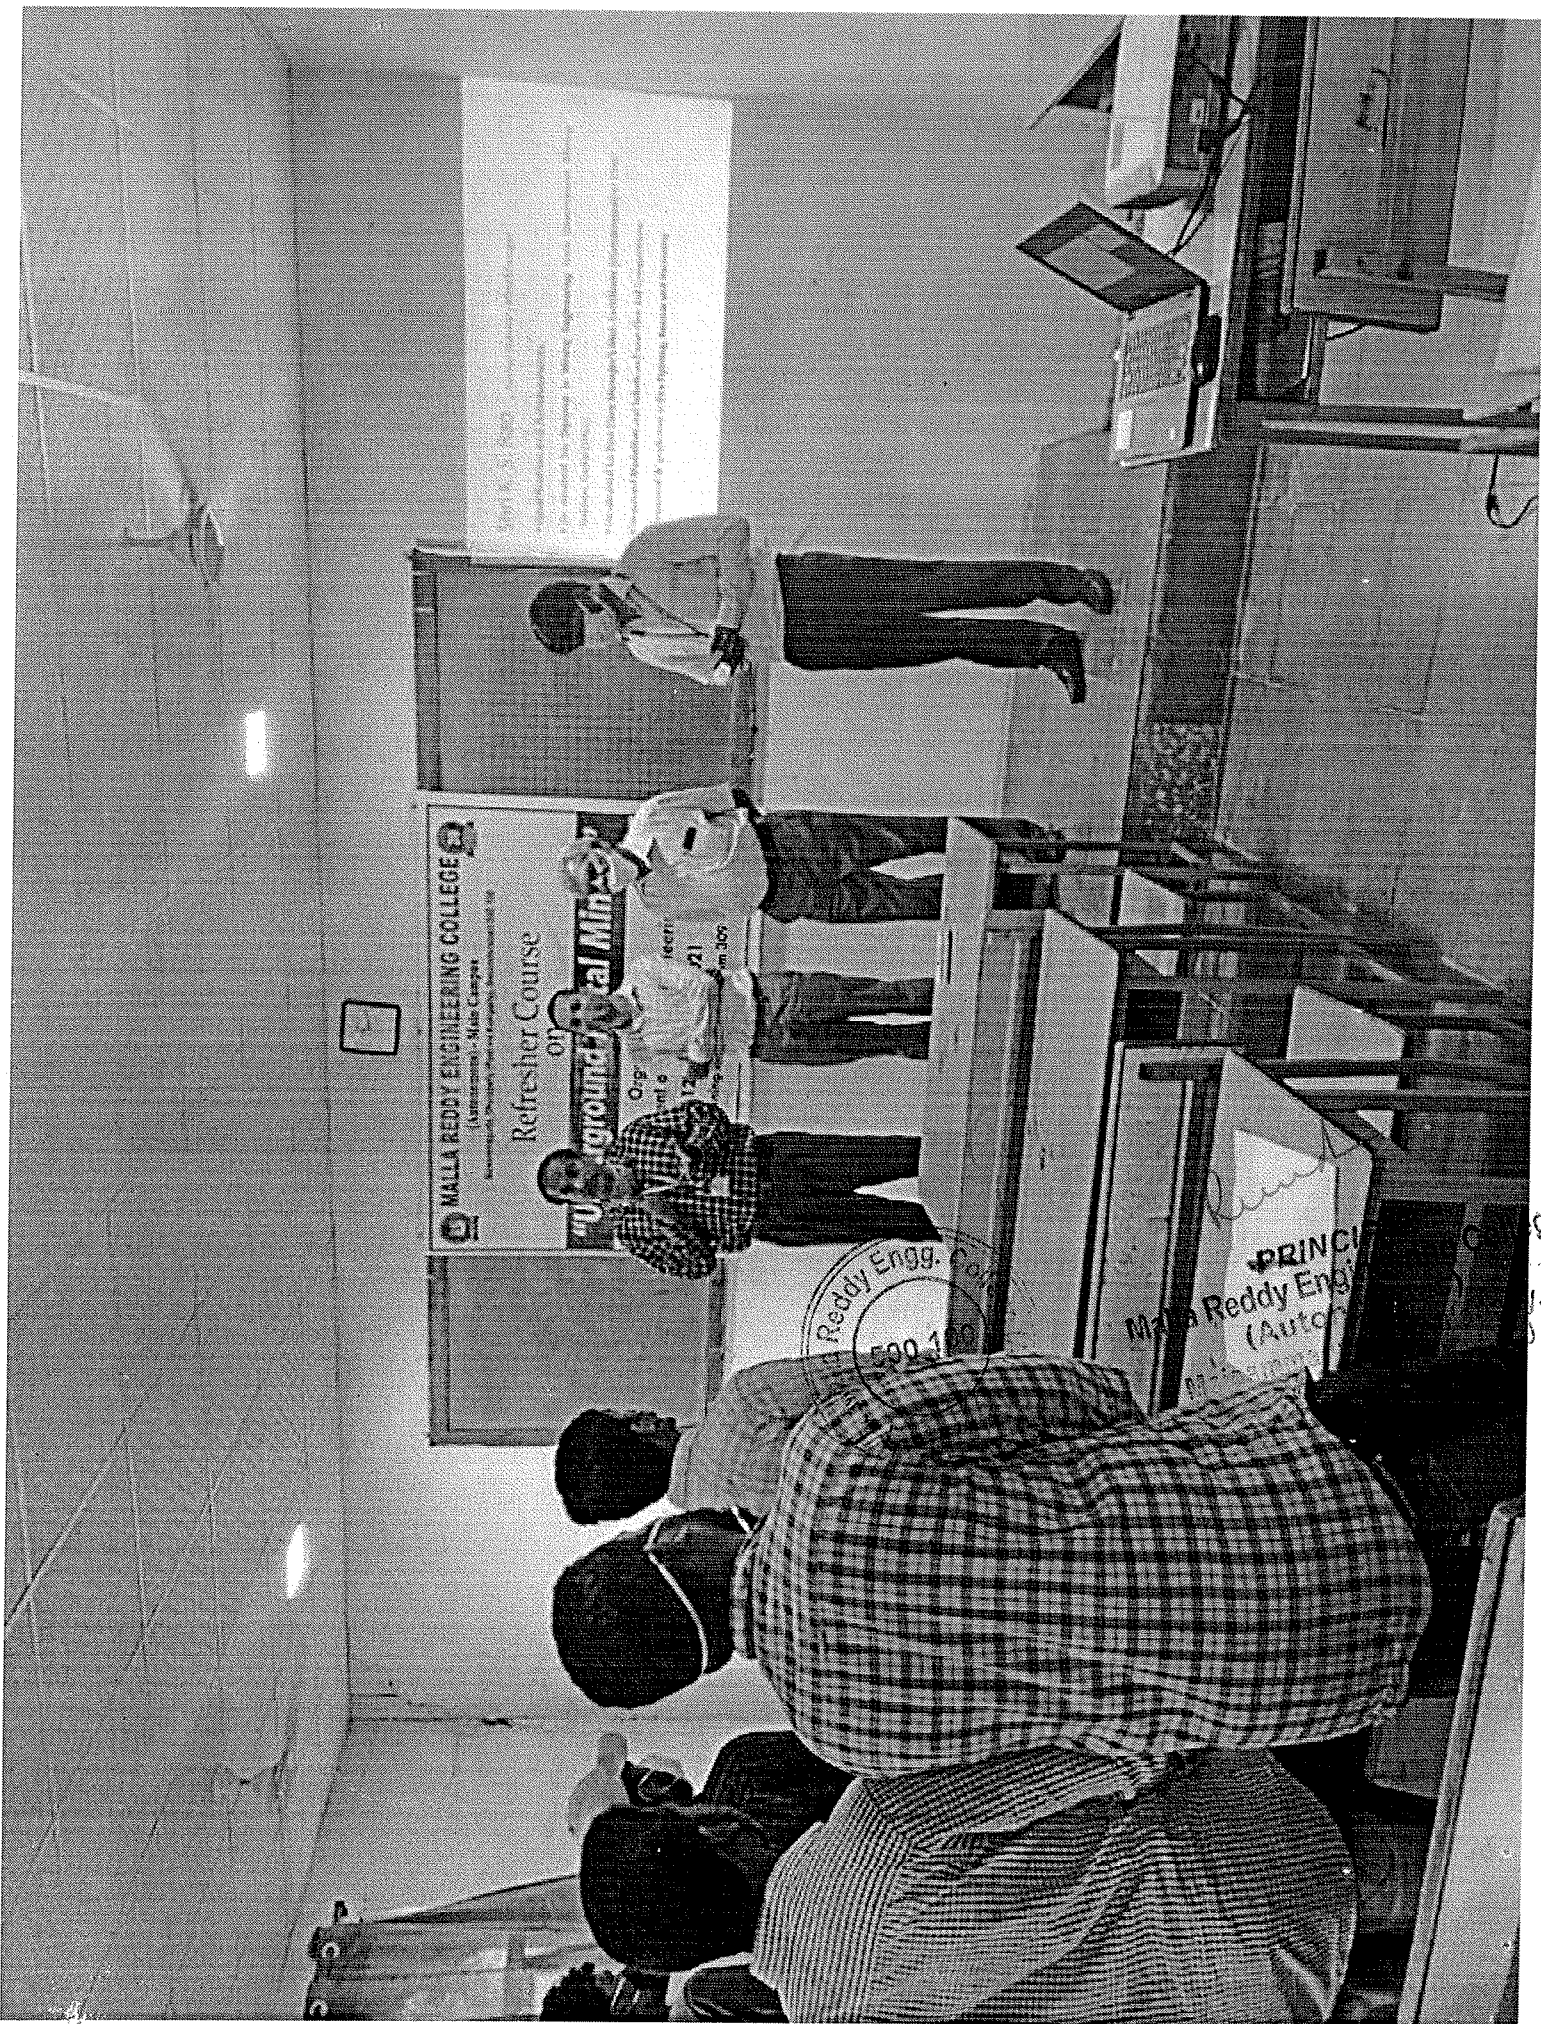

- In order improve the skill and knowledge of the students; Malla Reddy Engineering College is conducting a three day course of Gas Testing, outside syllabus for students of 3rd and final years and Refresher Course on Metal Mining. Simultaneously a refresher course was started exclusively for all final year students, who are likely to attend the company working in metal mines.
- Speaking on the occasion of Jyothi Prajwalana - inauguration of the program Dr. A. Rama Swami Reddy, Director, Malla Reddy Engineering College (Autonomous) told the students that college is making extra efforts by giving soft skills on various important software's, language and communication skill programs so that they become better engineers and also increases their employability.
- Dr. K Srinivas, Head of the Department, Dr. M.S. Venkatramayya Dean IIIC and professor of the Mining Engineering Department have told the students, importance of the Gas Testing skill in the mines and importance of refresher course in the mining in their careers as Mining Engineers.

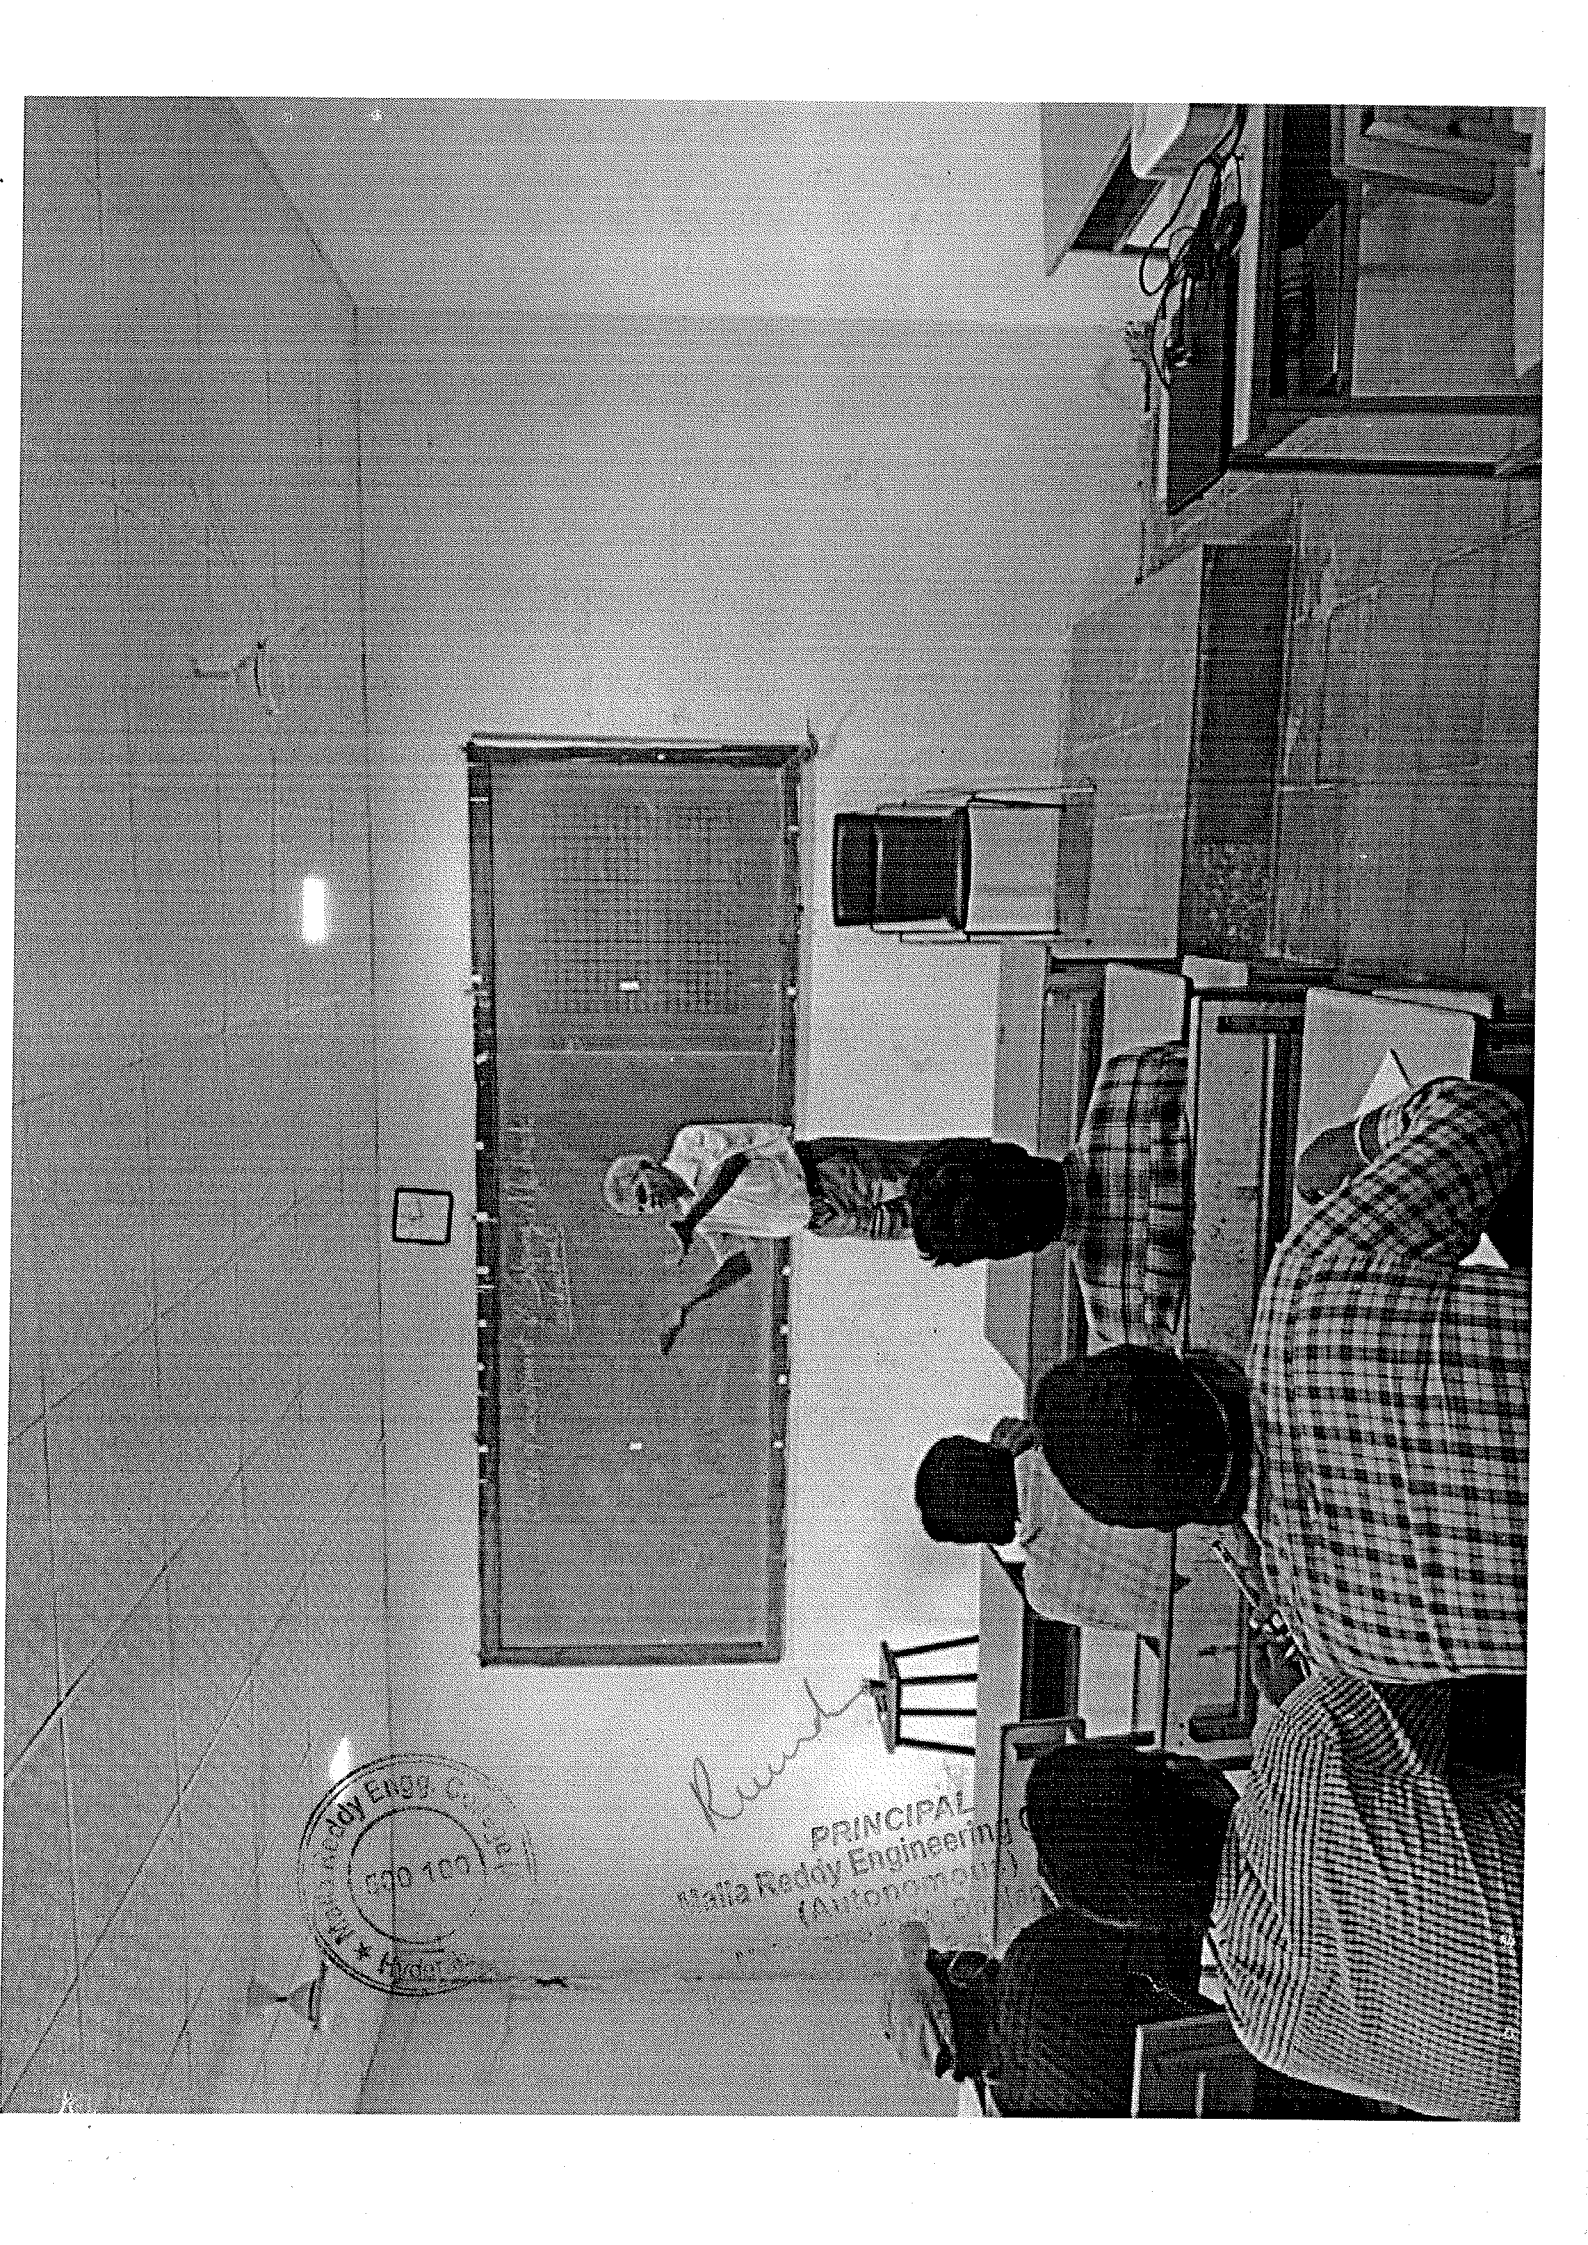

- Experts and experienced persons from Industry and Government would be acting as resource persons in these special skill training and refresher courses to give, Hands on the job training to the students so that they will have better job opportunities and excel in their carriers as Mining Engineers.
