About the Department

The Department of Mechanical Engineering has been established since the inception of the institution in the year 2002. The Department has good infrastructure facilities and is equipped with full-fledged laboratories to fulfil the curriculum needs. The Department has well experienced faculty. Around one-third of the faculty members in the department are Doctorate. The department has good number of sanctioned projects, funded by different agencies/industries. The Department is intended to be allotted a Research Centre by JNTU Hyderabad.

Overview of the Programme:

The primary responsibility of faculty is not only to inspire students towards a higher vision but also create a strong sense of bonding between the institution and the students to nurture a stress-free holistic environment. To enhance the quality of life for the student members enabling them to introspect and learn techniques that imbibe ethics & morals and help prepare students for active and successful participation in a modern society, producing individuals of high character, probity and honor.

This basic computer skills course will provide you with an understanding of the most popular, current technologies used at home and in the workplace. You will become computer literate in this hands-on course while you learn to access, create, save and manage documents, spreadsheets and emails and use the Internet effectively.

We demystify terminology and impart best practice skills for productive and secure use of hardware and software

Objectives of the Programme:

- Learn basic principles of windows operating system
- Learn basic keyboarding and mouse use
- Learn basic word processing skills with Microsoft word
- How they can be used for making our academic work effectively.

Topics to be covered:

- Hardware and Software
- Windows.
- Working with programmes
- File Management
- Word Processing, Spread sheets
- Accessing the internet

Certificate:

After successful completion of the course the certificates shall be issued to the participants.

Outcome of the Program:

After completing of the course ,student will be able to navigate the operating system and start applications, perform basic functions of file management, perform basic functions in a word processor and spreadsheet, manage print settings and print documents, receive and send emails ,use a web browser to navigate the Internet.

Basic Computer Skills Course and Effective Internet Use

Course code: VACM001

Duration of the course: 31 (hrs)

Objective of the course:

The course is designed to aim at imparting a basic level appreciation programme for the common man. After completing the course the incumbent is able to use the computer for basic purposes of preparing his personnel/business letters, viewing information on Internet, sending mails, using internet banking services.

Syllabus

Unit-1

Total hrs: 6

Hardware and software

- The main components of a computer, including input and output devices
- The function of communication devices such as smartphones and tablets
- The role of Operating Systems, programs and apps

Windows

- Turning on the computer and logging on
- The Windows screen
- Running programs from the Start Menu
- Minimising, maximising, moving, resizing and closing windows
- Logging off and shutting down your computer

Unit-2

Total hrs: 7

Working with programs

- Running multiple programs
- Desktop icons and creating a desktop shortcut
- Managing programs from the taskbar
- Closing programs

File management

- Managing Windows Explorer
- Creating, moving, renaming and deleting folders and files
- Understanding file extensions

- Viewing storage devices and network connections
- Managing USB flash drives

Unit-3

Total hrs: 6

Word processing

- Creating documents in Microsoft Word
- Typing text, numbers and dates into a document
- Easy formatting
- Checking the spelling in your document
- Making and saving changes to your document

Unit-4

Total hrs: 6

Spreadsheets

- Understanding spreadsheet functionality
- Creating spreadsheets in Microsoft Excel
- Typing text numbers and dates into a worksheet
- Easy formulas
- Easy formatting
- Making and saving changes to your workbook
- Printing a worksheet

Unit-5

Total hrs: 6

Accessing the internet

- Going to a specific website and bookmarking
- Understanding how to search/Google effectively
- Copy and paste Internet content into your documents and emails
- Stopping and refreshing pages
- Demystifying the Cloud
- Computer security best practices

Outcome of the course:

Demonstrate a basic understanding of computer hardware and software.

Demonstrate problem-solving skills. Apply logical skills to programming in a variety of languages. Utilize web technologies.

DEPARTMENT OF MECHANICAL ENGINEERING

ACADEMIC YEAR: 2022-23

SUMMARY REPORT

Value added course name: “**Basic Computer Skills Course and Effective Internet Use**”

Value added course Instructor: **Mrs.K.Sushma**

By now students know what is a Computer and where all it can be used; what is the role of the Operating System and how it establishes coordination between Hardware and Software. Similarly, we have gained good knowledge of Word Processor, Spread Sheet and Presentation software which are important parts of Microsoft Office. In this series, we also studied topics like Internet and e-mail that are components of our daily work routine.

Students have already learnt about what a computer is and where all it is used, the role of operating system in a computer and how it manages to co-ordinate between software and hardware. Similarly, we have learnt about Word Processor, Spreadsheet and Power Point, which are important tools of Microsoft Office. In this series we also learnt about internet, E-mail etc. which are important parts of our daily life.

Students have learnt about spreadsheet at the last level. We had read that we can interpret numbers with the help of charts. Usually human beings have the ability to understand easily through pictures in place of reading the text. After writing our monthly income on a spread sheet, with the help of a chart we can easily find out in which month we have gained the most and in which month we got less. In this chapter, we will study about charts in detail. At the last level, we learnt the use of formulas. For calculating the sum of large numbers, writing formula becomes difficult. For this we use function. At in this level we will know about function in data
