**About the Department:**

The Department of Electrical and Electronics Engineering at MREC has been producing high quality technical manpower needed by industry, R&D organizations, and academic institutions since 2002 with an Intake of 60.The Department also offering PG Program EPS The department UG Program was accredited by NBA in 2008 and Re-accredited in 2014.

**Overview of the Programme:**

The primary responsibility of faculty is not only to inspire students towards a higher vision but also create a strong sense of bonding between the institution and the students to nurture a stress-free holistic environment. To enhance the quality of life for the faculty members enabling them to introspect and learn techniques that imbibe ethics & morals in their teaching and help pre-prepare students for active and successful participation in a modern society, producing individuals of high character, probity and honor.

Proposed FDP is helping to imbibe the skills and competencies required to achieve goals directed by values, to maintain and enhance faculty effectiveness by inculcating dynamism and leadership qualities and to develop commitment and ethical approach towards work, and instill a sense of responsibility towards the institution. Also to enhance communication and soft skills, by introducing innovative teaching methodologies and developing an inter-personal connection with students. To achieve this goal, Art of Living foundation is conducting this workshop through ATAL.

**Objectives of the Programme:**

- To imbibe the skills and competencies required to achieve goals directed by values.
- To maintain and enhance faculty effectiveness by inculcating dynamism and leadership qualities.
- To Develop the basic Knowledge of basics of python among the students.

**Topics to be covered:**

- Introduction to Hybrid Electric Vehicle
- Hybrid Electric Drive-trains
- Sizing the drive system

**Test and Certificate:**

A test will be conducted at the end of the program and the certificates shall be issued to those participants

**Outcome of the Program:**

After completing the Course, the faculty and students will :

- Design and develop basic schemes of electric vehicles and hybrid electric vehicles.Use variables to store, retrieve and calculate information.
- Identify various communication protocols and technologies used in vehicle networks
