About the Authors

Dr. P. Santosh Kumar Patra is holding B.E, M.Tech & Ph.D in Computer Science and Engineering Degrees. In his research and academic contribution, 18 books, 30 patents, 188 research papers, 12 magazine articles, 138 News Paper Coverages have been published so far. Rs.596 Crore funding is received. He is an International motivational Speaker focusing on Personality Development. He is the Recipient of Governor Award thrice. He has also received the prestigious Rastriya Vikas Ratan, Rastriya Gaurav, Dronacharya and Young Leader of the year 2019 by IBAE International Award (Dubai).

Mrs. K. Anitha received M.Tech in VLSI and System Design from Joginapally B. R. Engineering College in 2013 and B.Tech degree from Vaagdevi College of Engineering, Warangal in 2007 in the branch of Electronics and Communication Engineering. She has 12 years of Teaching experience. Since 2014 Mrs. K.Anitha Is working as Assistant Professor/ECE in **St. Martin's Engineering College**. She has published more than 15 International Journals and Conferences. She is life member of IETE, IAENG and ISTE. Her research areas are VLSI Design, Digital Electronics and Linear IC Applications.

Dr. P. Joel Josephson received Ph.D from Anna University in 2021 and M.Tech in Embedded Systems from Aurora Technological and Research Institute in 2007 and B.Tech Degree from St.Johns College of Engineering and Technology in 2005. In the branch of Electronics and Communication Engineering. He has 11 years of Teaching experience. Dr. P. Joel Josephson has worked in various engineering colleges in Tamilnadu and Telangana. He has published more than 15 international journals and Conferences. His research areas are Embedded Systems and Micro Controllers.

Mr. S. P. Manikanta received M.Tech in Comm. & Signal Processing from Acharya Nagarjuna University in 2007 and B.E. Degree from Andhra University Campus, Vizag in 2004 in the branch of Electronics and Communication Engineering. He has 15 years of Teaching experience. Since 2012 Mr. S. P. Manikanta is working as Associate Professor / ECE in **St. Martin's Engineering College**. He has published more than 15 International Journals and Conferences. He is life member of IETE, IAENG and ISTE. His research areas are Digital Electronics and Linear IC Applications.
