(57) Abstract :

The main mode of building this device is to generate the electricity. Electricity is the main element to human kind. We are generating the electricity through the mercury loaded wheel that spins by its own; the energy will be generated from the rotation of the wheel. The key concept behind the ideology is basic Process (Hydraulic energy \diamond Rotational force \diamond kinetic energy \diamond electrical energy). Kinetic energy is a body possesses by virtue of being in motion. The device will capture the kinetic energy and convert it into electrical energy that can be storable and usable for the current utility or for the future purpose.
