MBA IV SEMESTER SUPPLEMENTARY EXAMINATIONS, NOVEMBER-2019

Subject: ENTREPRENEURSHIP

Branch: MBA

Time: 3 hours

Max. Marks: 60

PART-A

Answer All Questions

5 X 4M = 20 Marks

1. What are the characteristics of Successful Entrepreneur?
2. Why does Entrepreneurs need to do Environmental Scanning?
3. Role of NIESBUD in building Entrepreneurship Ecosystem.
4. What do you mean by Export Oriented Units?
5. Explain the terms 'Licensing' and 'Franchising'.

PART-B

Answer All Questions

5X8M=40 Marks

1. Define the term 'Entrepreneur'. Elucidate the role Entrepreneurship in economic development of a nation.

(OR)

2. a) Explain the process of Entrepreneurship.
b) Why do you feel that creating an Entrepreneurial Mindset is important to motivate Entrepreneurs?
3. What is a Business plan? Explain the essential elements of a Business plan for an Entrepreneur.

(OR)

4. How do you conduct feasibility study and competitor Analysis? Why do you think they are necessary to conduct by any Entrepreneur?
5. List out various sources of finance available for early stage entrepreneurs in India.

(OR)

6. a) How do FDI's and Institutional Investors help Entrepreneurship movement?
b) Write note on MDI & EDII
7. What should be the role of State and Central Governments in promoting Entrepreneurship?

(OR)

8. Explain the women entrepreneurship movement in India with reference to successful women entrepreneurs.
9. "Startups face lot of Legal issues and Challenges to start a new venture", Elucidate the statement.

(OR)

10. Explain the concepts of 'Strategic Positioning' and 'Business Stabilization' with reference to an Entrepreneur.

MBA IV SEMESTER SUPPLEMENTARY EXAMINATIONS, NOVEMBER-2019Subject: **STRATEGIC INVESTMENT AND FINANCING DECISIONS**

Branch: MBA/FINANCE

Time: 3 hours

Max. Marks: 60

PART-A

Answer All Questions

5 X 4M = 20 Marks

1. Capital Rationing
2. Lorie Savage Paradox
3. Bail-out Pay Back
4. Lease Risk Management
5. Merger vs. Acquisition

PART-B

Answer All Questions

5X8M=40 Marks

1. Santosh Limited is considering an investment proposal involving an outlay of Rs.10,00,000. The expected cash flows and certainty equivalent (CE) coefficients are given below.

Year	1	2	3	4	5
Cash flow (Rs.)	3,20,000	3,80,000	2,40,000	3,20,000	2,00,000
CE coefficient	0.85	0.82	0.80	0.75	0.70

The risk-free interest rate is 5%. Calculate the net present value of the proposal and suggest whether it is worthwhile or not?

(OR)

2. Prajay Limited is evaluating a project that has the following cash flow stream associated with it.

Year	0	1	2	3	4	5	6
Cash flow (Rs. in million)	-100	-90	30	45	65	80	85

The cost of capital for Prajay Limited is 15%. You are required to calculate modified internal rate of return (MIRR).

3. A firm's cost of capital is 12%. It is considering two mutually exclusive projects, X and Y which cost Rs.1,40,000 each. The details of expected cash flows from both the projects are given below. Compute Internal Rate of Return (IRR) for both projects and advice the firm about their acceptability.

Year	Project X (Rs.)	Project Y (Rs.)
1	20,000	1,00,000
2	40,000	80,000
3	60,000	60,000
4	80,000	40,000
5	1,00,000	20,000

(OR)

4. Explain in detail the circumstances leading to project abandonment decisions.
5. A firm is considering a project which incur an initial investment of Rs.1,50,000 and the estimated cash flows after tax (CFAT) for the project are as follows. You are required to calculate discounted payback period for the project assuming 15% cost of capital.

Year	Cash inflows
1	1,00,000
2	2,50,000
3	3,50,000
4	5,50,000
5	7,50,000

(OR)

6. An investment project involves a current outlay of Rs.10,000. The mean and standard deviation of cash flows, which are perfectly correlated, are as follows.

Year	1	2	3	4
Mean of cash flows (Rs.)	5,000	6,000	4,500	4,000
Standard deviation of cash flows	1,800	1,600	1,200	1,000

The cost of capital is 8%. You are required to calculate expected net present value and standard deviation of the same by using Hillier approach.

7. Differentiate between hire purchase and installment credit decisions.

(OR)

8. Explain in detail the advantages of lease financing.
9. Discuss in detail the various theories of mergers.

(OR)

10. Explain in detail the regulatory framework for mergers.

MBA IV SEMESTER SUPPLEMENTARY EXAMINATIONS, NOVEMBER-2019

Subject: **BANKING & INSURANCE**

Branch: **MBA/FINANCE**

Time: 3 hours

Max. Marks: 60

PART-A

Answer All Questions

5 X 4M = 20 Marks

1. Indian Financial System
2. Loan Pricing
3. Retail Banking
4. IRDA
5. Actuarial Science

PART-B

Answer All Questions

5X8M=40 Marks

1. What is the role of commercial banks in Indian economic development?
(OR)
2. Explain how financial statement analysis of banks is performed using CAMEL approach.
3. Write a detailed note on non-performing assets and the implications of it on the banking sector.
(OR)
4. How do the banks assess the credit worthiness of a prospective borrower? Explain.
5. Write a note on changing role of banks as financial intermediaries.
(OR)
6. Write in detail about Basel Accords I committee on banking supervision.
7. Explain in detail the various basic principles of insurance.
(OR)
8. What are the criteria for appointment and capital adequacy norms for insurance broker?
9. Explain in detail the different types of life insurance products.
(OR)
10. Discuss the role of third party administrators with respect to life insurance.
