The following suggestions were made by the members of the Board of studies.

- Instead of randomly selecting the subjects, the tracks / buckets can be formed regarding the Professional Elective Categories.
- Probability and Statistics & Discrete Mathematics courses should not be in the same semester.

- Android Application Development Course may be replaced with AWS, Agile Modeling / Agile Processing, DevOps courses.
- The VIII Semester courses may be compensated through Credit transfer options by MOOC, so that the students will get more exposure through Internships and Project oriented activities, which enhances employability.
- Theory and concern laboratories distribution of Credits has to be done evenly throughout the Course.
- Continuity in the Professional Elective Categories should be maintained.
- Based on the necessity, the laboratory courses may be integrated with the Core and Elective Courses.
- MOOC should be awarded with substantial credits.
- Activities related to Research, Teaching, Extension and other Academic activities should be elaborated separately in detail.
- Generic / Basic / Superficial subjects are suggested to incorporate in Open Electives.
- Open Elective (to other departments) will be offered based on the availability of Course Instructor.
- Tangible outputs to be measured regarding the Learning Methodologies.
- Attainment of Course Outcome and Programme Outcome may be presented during the forthcoming meeting.
- In the suggested OEs, the Genetic Algorithm can be replaced with Evolutionary Algorithms.
- In the suggested list of OEs, Network Security, Database Security and Middleware Technologies are not suggested.

Finally, Dr. S. Kannan, Chairman – IT(UG) Board of Studies has expressed his sincere thanks to all the Members of the Board of studies for their active participation and contribution. The meeting concluded at 4:30 PM.
